|  | **No Contact: How a Seductive Ideology Broke Families and Friendships and How We Can Repair Them (2026)** by Noelle Mering<br><br>An incisive exposé of the widespread, politically motivated "no contact" movement that deconstructs the ideology behind this trend and equips readers to avert estrangement and repair broken relationships. While in the past, relationships tended to rupture over issues like abuse, today increasingly people are estranged because of politics. More than 68 million Americans are currently estranged from close family members. An ideology that threatens not just relationships but the entire fabric of society. By laying bare the forces behind this destabilizing movement, Mering helps readers to see clearly what is happening, confront it, and work with their families to heal, repair, and strengthen relationships. No Contact empowers readers with a clear-eyed and compassionate perspective that rejects the pernicious ideology undermining our most intimate and necessary relationships. | No Contact<br>Critical Social Justice<br>Woke Ideology<br>Gender Ideology<br>TDS<br>Destroy Family |
|  | **Indoctrinating Our Children to Death: Government Schools' War on Faith, Family, & Freedom – And How to Stop It (2024)** by Alex Newman<br><br>Building on over a decade of research and investigative reporting into the indoctrination, sexualization, and dumbing down of children, Alex Newman documents the untold history behind government education and its founders like nobody has ever done before. Among other bombshells, the book proves that the system is not "broken," but is working well when considering the goals of its architects. These goals included turning Americans away from God, fundamentally transforming the nation away from its constitutional foundations, and more. Using primary-source documentation, interviews, and insights from leading experts, Newman not only diagnoses the problem but also offers true solutions that are long overdue. | Education<br>Indoctrination<br>Dumbing Down<br>Destroy Family<br>Collectivisation<br>UNESCO |
|  | **The Queering of the American Child: How a New School Religious Cult Poisons the Minds and Bodies of Normal Kids** by Logan Lancing, James Lindsay<br><br>American children are learning a lot about sex, "gender," and sexuality in their schools. Administrators, teachers, and librarians are obsessed with pushing inappropriate topics onto kids, all in the name of "inclusion." Children today learn that they were "assigned a sex at birth" and can change their sex or "gender" at will. Kids are no longer learning to read, write, or do math, but they are learning how to be "radical gender" activists. Schools keep parents in the dark, hiding critical information about the health and well-being of their children. Once initiated, children "experience the queer" as they adopt a new cult identity and embark on the destructive path of social and medical "transition." The authors explain what Queer Theory is, where it comes from, how it got into schools, and what it's doing to children nationwide. | Education<br>Queer Theory<br>Gender Ideology<br>Critical Social Justice<br>Woke Ideology<br>Indoctrination<br>Transgender<br>Destroy Family |
|  | **Critical Dilemma: The Rise of Critical Theories and Social Justice Ideology—Implications for the Church and Society** (2026) by Neil Shenvi & Pat Sawyer<br><br>Where Are Critical Theory and the Social Justice Movement Taking Us? Critical theory and its expression in fields such as critical race theory, critical pedagogy, and queer theory are having a profound impact on our culture. Contemporary critical theory's ideas about race, class, gender, identity, and justice have dramatically shaped how people think, act, and view one another. Critical Dilemma exposes the false assumptions at the heart of critical theory, arguing that it poses a serious threat to both the church and society at large. Drawing on exhaustive research and careful analysis, Shenvi and Sawyer condemn racism, urge Christians to seek justice, and offer a path forward for racial healing and unity while also opposing critical theory's manifold errors. | Critical Social Justice<br>Woke Ideology<br>Catholic Social Teaching<br>Critical Theory<br>Neo-Marxism<br>Postmodernism<br>Critical Race Theory<br>Queer Theory<br>Indoctrination |
|  | **Cynical Therapies: Perspectives on the Antitherapeutic Nature of Critical Social Justice (2023)** by Dr Val Thomas<br><br>Traditional therapy practice is facing a crisis due to the increasing influence of Critical Social Justice (aka 'wokeness'). Activists are reframing the narrative of therapy, seizing control of professional bodies and institutions, and teaching future therapists to view their primary role as changing society. Any critique is cancelled: critics are characterised as reactionary and bigoted. A diverse group of authors present critical perspectives on the antitherapeutic nature of Critical Social Justice. How did therapy become vulnerable to a political authoritarian ideology? What are the implications of gender ideology for therapeutic practice? What are the implications of the politicisation of professional bodies and training institutes for counselling and psychotherapy? Some thoughts are offered about how to push back. | Psychotherapy<br>Critical Social Justice<br>Woke Ideology<br>Critical Theory<br>Neo-Marxism<br>Critical Race Theory<br>Gender Ideology<br>Affirmation |
|  | **Stolen Youth - How Radicals Are Erasing Innocence and Indoctrinating a Generation**<br>by Karol Markowicz & Bethany Mandel<br><br>The left is waging an all-out battle on the family. They make our children miserable, lead them to question every building block of society, and rebuild their entire concept of reality. Stolen Youth provides an urgent deep dive into issues surrounding the current woke indoctrination happening in politics, education, medicine, mental health, entertainment, and culture. These issues may seem subtle, insidious, and hard to make sense of, but armed with the information provided, we now have a framework from which to fight. Simply trying to parent our children well and create a healthy and happy home environment is no longer enough. We must now go on the offense to protect our kids, and this book sheds a bright light on the reason why. We can no longer afford to stay ignorant. Our children's lives and the survival of our families are at stake. | Education<br>Indoctrination<br>Sexualisation<br>Critical Social Justice<br>Woke Ideology |
|  | **You're Teaching My Child What?: A Physician Exposes the Lies of Sex Ed and How They Harm Your Child** by Miriam Grossman<br><br>If you think sex education is still about the birds and the bees, think again. And it's not about science either. In her shocking exposé, You're Teaching My Child What?, Dr. Miriam Grossman rips back the curtain on sex education today, exposing a sordid truth. Today's sex ed programs aren't based on science; they're based on liberal lies and politically correct propaganda that promote the illusion that children can be sexually free without risk. As a psychiatrist and expert on sexual education, Dr. Grossman cites example after example of schools and organizations whitewashing - or omitting altogether - crucial information that doesn't fit in with their woke agenda. | Education<br>Indoctrination<br>Sexualisation<br>Gender Ideology |

|  | **A WAR TO WIN BACK YOUR WORLD: BECAUSE SILENCE FEELS LIKE DYING**<br>by Bernie Spofforth<br><br>Then she was arrested, publicly vilified, and held for 36 hours over a social media post. No charge followed. But the experience changed everything. In A War to Win Back Your World, Spofforth traces the money, legislation, institutions, and global frameworks she believes are reshaping modern life far beyond the reach of ordinary voters. From Net Zero and digital identity systems to migration policy, censorship, and economic control, she argues that power has steadily shifted away from democratic accountability and into the hands of unelected networks, international institutions, NGOs, and corporate alliances. This is not a conspiracy book. It is an investigation. Written in plain English, with wit, anger, humour and deep research, it asks a disturbing question: What if the biggest lie of our age isn't what's happening… but the belief that you still control it? | Agenda 2030<br>Sustainable Development<br>Climate Change<br>Technocracy<br>Totalitarianism |
|  | **The UN's Agenda 2030 Marxist Stealth Plan for World Government** by Arthur R.Thompson<br>**[Free Download] https://archive.org/details/agenda21-earth-summit-the-united-nations-programme-of-action-from-rio_1/BKUNA2030-TheUNAgenda2030/**<br><br>Frames the United Nations 2030 Agenda in the context of a Marxist/Communist stealth plan (rooted in the techniques of Cultural Marxism) to undermine Western democracy and freedom by means of the manufactured crisis areas of inclusion and climate., with a view to dumbing down and limiting people's freedoms including their ability to own private property. | Agenda 2030<br>Sustainable Development<br>Climate Change<br>Technocracy<br>Totalitarianism<br>Communism |
|  | **The Abolition Of Man (1947) by C. S. Lewis**<br>**[Free Download]** https://archive.org/details/in.ernet.dli.2015.88346<br><br>Astonishing and prophetic, The Abolition of Man is one of the most debated of C. S. Lewis's extraordinary works. National Review chose it as number seven on their "100 Best Nonfiction Books of the Twentieth Century." In this classic The Abolition of Man, Lewis, one of the most important Christian writers of last century, sets out to persuade his audience of the importance and relevance of universal values such as courage and honor in his contemporary society. The deep yet fundamental concepts in this timeless classic are even more relevant and important for our contemporary society today. | Education<br>Moral Values |
|  | **Trans: When Ideology Meets Reality** by Helen Joyce<br><br>Gender identity ideology is about more than Twitter storms and using the right pronouns. In just 10 years, laws, company policies, school and university curricula, sport, medical protocols, and the media have been reshaped to privilege self-declared gender identity over biological sex. People are being shamed and silenced for attempting to understand the consequences of redefining "man" and "woman". While compassion for transgender lives is well-intentioned, it is stifling much-needed inquiry into the significance of our bodies. If we recommit to our liberal values of freedom of belief, freedom of speech, and robust debate, we scan de-escalate this most vicious of culture wars. | Gender Ideology |
|  | **When Kids Say They're Trans** by Lisa Marchiano, Stella O'Malley, Sasha Ayad<br><br>There have been many books written for parents who are facilitating a child's gender transition, but almost none for parents who decide that social or medical transition is not the best option for their child. Written by three professionals working in the field – Sasha Ayad, Lisa Marchiano and Stella O'Malley – When Kids Say They're Trans is explicitly a resource for parents who want their children to flourish, but do not believe that hasty medicalisation is the best way to ensure long-term health and well-being. Parents who have successfully helped their children navigate gender distress without resorting to surgery and hormones have done so by actively taking the reins, not waiting until they found the right therapist or doctor. When Kids Say They're Trans will tell you all you need to know, and will give you the confidence to trust your own instincts. | Gender Ideology |
|  | **Time to Think: The Inside Story of the Collapse of the Tavistock's Gender Service for Children** by Hannah Barnes<br><br>The Tavistock's Gender Identity Development Service (GIDS) was set up initially to provide talking therapies to young people who were questioning their gender identity. But in the last decade GIDS referred around two thousand children, some as young as nine years old, for medication to block their puberty. In the same period, the number of referrals exploded and the profile of the patients changed: from largely pre-pubescent boys to mostly adolescent girls, who were often contending with other difficulties. Was there enough clinical evidence to justify such profound medical interventions? This urgent, scrupulous and dramatic book explains how GIDS has been the site of a serious medical scandal, in which ideological concerns took priority over clinical practice.It is a disturbing and gripping parable for our times. | Gender Ideology<br>Tavistock |
|  | **Lost in Trans Nation: A Child Psychiatrist's Guide Out of the Madness** by Miriam Grossman<br><br>Lost in TransNation arms parents with the ammunition to avoid, or, if necessary, fight what many families describe as the most difficult challenge of their lives. Parents will learn what to say and how—at home, at school, and if necessary, to police when they appear at the door. A must read guide for parents attempting to navigate their children through the troubled waters of the current culture in education. Provides some really good practical advice. | Gender Ideology<br>Destroy Family |

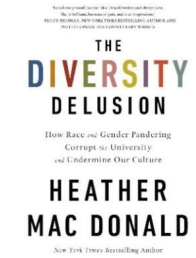

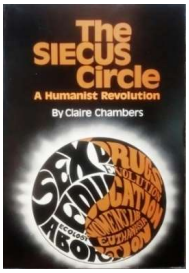

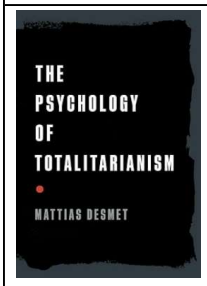

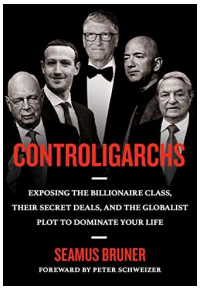

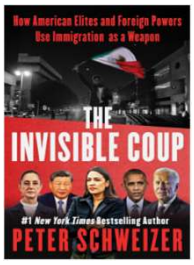

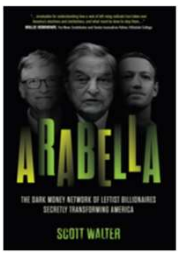

| | | |
|---|---|---|
|  | **Irreversible Damage: The Transgender Craze Seducing Our Daughters** by Abigail Shrier<br><br>Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as "transgender." These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans "influencers." Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and "gender-affirming" educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. | Gender Ideology<br>Destroy Family |
|  | **Mao's America - A Survivor's Warning** by Xi Van Fleet<br><br>Xi tells the story of two Cultural Revolutions: one driven by Mao and the Chinese Communist Party during her childhood and the one unfolding in today's America from the progressive left. Xi reveals the stunning similarities. This book shows readers that both revolutions: 1) Use Marxist tactics of division, indoctrination, deception, coercion, cancelation, subversion and violence, 2) Aim to destroy the foundation of the traditional culture to replace it with Marxist ideologies, 3) Weaponize youth, using them as their means to an end, 4) Share the same goal of achieving absolute power at the expense of the people, 5) Lead to the same ending: loss of freedom and totalitarian rule. Xi now devotes her life to educating the American public on the shocking parallels between these two revolutions. Because only when Americans understand what is really happening will they rise up and resist the communist takeover of America. | Communism<br>Critical Theory<br>Neo-Marxism<br>Critical Race Theory<br>Woke Ideology |
|  | **Awake Not Woke: A Christian Response to the Cult of Progressive Ideology** by Noelle Mering<br><br>The long-simmering crisis that grips our culture has exploded in recent years, leaving us divided and intransigent. Discourse seems futile when we are no longer a people with shared principles or even a shared understanding of reality. What seems obvious to one person is patently absurd to the next. This collapse of meaning is not accidental. It has been plotted and documented for decades, and now presents in its current form as Woke ideology. Awake, Not Woke unmasks this ideology by examining its history, major players, premises, and tactics, showing us that "Wokeness" at its core is an ideology of rupture. Indeed, it is an ideology with fundamentalist and even cult-like characteristics that is on a collision course with Christianity. | Critical Social Justice<br>Woke Ideology<br>Critical Theory<br>Neo-Marxism<br>Postmodernism<br>Critical Race Theory<br>Queer Theory |
|  | **The Capture of Academia: How Universities Shape Power, Silence Dissent, and Influence Society** by Prof Norman Elliott Fenton<br><br>After forty-seven years inside Britain's universities, Norman Fenton explains how political activism came to dominate academic life, rewarding conformity over enquiry and activism over scholarship. Drawing on personal experience and extensive evidence, Fenton argues that the ideological capture of universities has spread far beyond the campus, reshaping public institutions, influencing government policy, distorting scientific debate and eroding the values on which a free society depends. At a time of growing concern about free speech, elite power, and the role of universities in public life, The Capture of Academia offers a timely and controversial account of what has gone wrong, and why it matters far beyond the campus. | Critical Social Justice<br>Woke Ideology<br>Capture of Academia |
|  | **The Marxification of Education: Paulo Freire's Critical Marxism and the Theft of Education (2022)** by James Lindsay<br><br>Education is in bad shape in America and beyond today. Our children aren't learning as they should be. Their mastery of core academic curriculum like reading, writing, history, mathematics, science, and civics has declined to crisis levels and shows no signs of improvement. Meanwhile, they're all learning to be activists, turning their backs on their nations, societies, and even their parents and religions. Instead of correcting course, school curricula keep veering into "social and emotional learning (SEL)," Critical Race Theory, cultural competence, culturally relevant education, Queer Theory, Radical Gender Theory, Comprehensive Sexuality Education, decolonizing the curriculum, and even drag queens. Their education has been stolen from them. Activists have spent the last 40+ years taking over education and transforming it: not mere indoctrination but brainwashing. The transformation of education from education to neo-Marxist thought reform follows significantly from the work of a Brazilian Marxist by the name of Paulo Freire. | Critical Social Justice<br>Woke Ideology<br>Critical Theory<br>Neo-Marxism<br>Postmodernism<br>Critical Race Theory<br>Queer Theory<br>Critical Pedagogy<br>Social Emotional Learning<br>Indoctrination<br>Capture of Academia |
|  | **The Indoctrinated Brain: How to Successfully Fend Off the Global Attack on Your Mental Freedom (2023)** by Michael Nehls<br><br>Throughout the world, mental capacity is declining, especially among young people, while depression rates are rising dramatically. Meanwhile, one in forty men and women suffers from Alzheimer's, and the age of onset is falling rapidly. But the causes are not being eliminated, quite the opposite. The Indoctrinated Brain introduces a largely unknown, powerful neurobiological mechanism whose externally induced dysfunction underlies these catastrophic developments. Michael Nehls, medical doctor and internationally renowned molecular geneticist, points out how the raging wars against viruses, about climate change, or over national borders etc. are fundamentally providing the platform for such an offensive against the human brain that is steadily changing our being and is aimed at depriving us of our ability to think for ourselves. | Indoctrination<br>Dumbing Down<br>Mental Health<br>Covid |
|  | **"Covid-19," Psychological Operations, and the War for Technocracy: Volume 1**<br>by David A. Hughes **[Free Download]** https://archive.org/details/covid-19-psychological-operations-and-the-war-for-technocracy<br><br>Camouflaged by "Covid-19," an undeclared global class war was initiated in 2020, aimed at replacing liberal democracy with technocracy, a novel, biodigital form of totalitarianism. The opening campaign involved the largest psychological operation in history, intended to demoralise, disorientate, and debilitate the public. This volume deals with the application of shock and stress, trauma-based mind control, the use of fear and threat, cognitive attack, weaponised deception, and techniques for turning society against itself. | Indoctrination<br>Menticide<br>Mental Health<br>Dumbing Down<br>Covid<br>Technocracy<br>Totalitarianism |

|---|---|---|
|  | **Cynical Theories: How Activist Scholarship Made Everything About Race, Gender, and Identity - and Why This Harms Everybody** by Helen Pluckrose & James Lindsay<br><br>Have you heard that language is violence and that science is sexist? Have you read that certain people shouldn't practice yoga or cook Chinese food? Or been told that being obese is healthy, that there is no such thing as biological sex, or that only White people can be racist? Are you confused by these ideas, and do you wonder how they have managed so quickly to challenge the very logic of Western society? More focused on the political side of what's happening in the culture and insightful in that context. Effectively a debunking of radical activist scholarship. | Critical Social Justice<br>Woke Ideology<br>Critical Theory<br>Neo-Marxism<br>Postmodernism<br>Critical Race Theory<br>Queer Theory<br>Indoctrination |
|  | **Bully Proof Kids by** Stella O'Malley<br><br>We can't always be there to protect our kids as they make their way in the world. What we can do is equip them with the tools they need to ensure they have a positive social experience.<br>Based on many years' experience counselling bullies and targets, Stella O'Malley offers concrete strategies to empower children and teenagers to deal confidently with bullying and dominant characters.She identifies effective ways for families to cope when bullying occurs, including approaching the school authorities, communicating with the bully's parents and tips to tackle cyberbullying. Stella's common-sense approach will help your child, tween or teen to develop their emotional intelligence and will provide relief for families navigating the rapidly changing social environment, both online and in school. | Mental Health<br>Bullying |
|  | **The Coddling of the American Mind: How Good Intentions and Bad Ideas Are Setting Up a Generation for Failure by** Jonathan Haidt<br><br>What doesn't kill you makes you weaker. Always trust your feelings. Life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being, as well as ancient wisdom from many cultures. And yet they have become increasingly woven into education, culminating in a stifling culture of "safetyism" that began on American college campuses and is spreading throughout academic institutions in the English-speaking world. | Mental Health<br>Wellbeing<br>Critical Social Justice<br>Woke Ideology |
|  | **Milestones (2006)** by Qutb Sayed<br>**[Free Download]** https://drive.google.com/file/d/0B9UK4WbD_y24UTJhVG1OeGRTTlk/view<br><br>Milestones is arguably the most important Islamic literary piece written in the 20th century. Few thinkers have had such an influence on the contemporary Islamic thought as ash-shaheed Sayyid Qutb. Since his execution in 1964 in Cairo, his death became the perfect illustration of one of the processes through which a human being becomes part of the revolutionary movement aimed at changing the world and bringing in a new ethical moral order based on freedom, brotherhood, and justice for all. Islam stands for change. It seeks to change the individual and the society. This change covers every aspect of human life: from personal morality to business economics and politics. It is only natural that Islam should be fought by those who want to keep the status quo. This is the way it has always been throughout history: Adam to Nuh, Ibrahim, Musa, Isa, and Muahmmad. It will happen to anyone who wants to stand up and proclaim the true message of Islam to the world. | Islam<br>Global Caliphate |
|  | **The Camp of the Saints (1973)** by Jean Raspail<br>**[Free Download]** https://archive.org/details/the-camp-of-the-saints-jean-raspail_202412<br>**[Free Audiobook]** https://archive.org/details/jq4a4qa<br><br>A migrant fleet, a million strong, sets sail from Calcutta. Its destination: Europe. As the fleet advances, the continent is submerged by a torrent of words. Will the old nations of Europe resist the migrants or welcome them? Honor their past or embrace the radiant future? Open fire or open their hearts?<br>Enthusiasm, delusion, cowardice. And, finally, panic. The migrants make landfall...<br>The Camp of the Saints ranks among the great dystopian novels of the twentieth century. It is often hailed as prophesying the mass migrations of our own day. The present edition contains an introduction by the scholar of French political thought Nathan Pinkoski, the 2011 preface that Raspail wrote by way of final testament for the book, and an original translation by Ethan Rundell. For the first time available in English after years of neglect, this edition will allow a new generation of readers to pose Raspail's questions for themselves and measure the distance we have come - or not come - since the book was first published over fifty years ago. | Immigration<br>Globalism |
|  | **Rockefeller: Controlling the Game (2024)** by Jacob Nordangård<br><br>Why would the first family of oil so ardently support environmental climate research and activism? Join author and researcher Jacob Nordangård as he uncovers the whole sordid truth. Why would the family that made the world dependent on oil fund environmental and climate research since the 1950s, help shape climate policy measures since the 1980s, and supported climate activism since the 1990s? Through its top position in American business, close contacts with the White House, and with their immense financial power as one of the world's leading private research funders, the Rockefellers have been able to anchor the climate issue both scientifically and politically. Yet what is the reasoning behind doing so? The author follows the family from the founding of Standard Oil and the Rockefeller Foundation, up through the aftermath of the Paris Agreement, with the declaration of the Fourth Industrial Revolution in January 2016, to the present day. Nordangård's in-depth research includes the large quantities of new material recently made available on the Internet, as well as the Rockefeller Foundation's own annual reports. Nordangård's main focus is the Rockefeller family's involvement in climate research and politics, but the actions and motives of some of their allies are also explored, as well as the family's influence on the development of modern medicine, family planning, agriculture, art, architecture, behavioral science, information technology, and politics. The Rockefeller family's utopian dream of a perfect world will have serious consequences for the survival of the human species and life as we know it. The Rockefeller Foundation's stated mission to "promote the well-being of humanity throughout the world" has a dark flipside, as, Nordangård will prove, the Rockefeller family's long-standing battle against climate change contains elements of sophisticated propaganda techniques, futurism, and New Age philosophy, aiming at a complete transformation of the whole earth system, including economy, ecology, culture, and even humanity itself. | Globalism<br>Corporatism<br>United Nations<br>Climate Change |

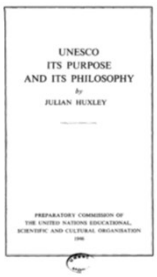

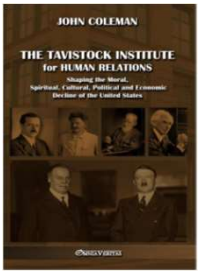

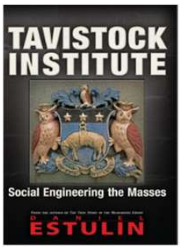

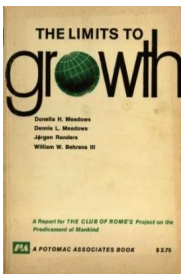

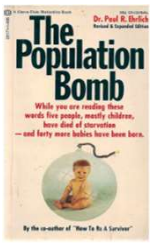

| | | |
|---|---|---|
|  | **Unsettled (Updated and Expanded Edition): What Climate Science Tells Us, What It Doesn't, and Why It Matters (2024)** by Steven E. Koonin<br><br>Steven Koonin draws on decades of experience—including as a top science advisor to the Obama administration—to clear away the fog and explain what science really says (and doesn't say). This edition now features reflections on an additional three years of eye-opening data, alternatives to unrealistic "net zero" solutions, global energy inequalities, and the energy crisis arising from the war in Ukraine. When it comes to climate change, the media, politicians, and other prominent voices have declared that "the science is settled." In reality, the climate is changing, but the why and how aren't as clear as you've probably been led to believe. Koonin takes readers behind the headlines, dispels popular myths, and unveils little-known truths: 1) Despite rising greenhouse gas emissions, global temperatures decreased from 1940 to 1970, 2) Models currently used to predict the future do not accurately describe the climate of the past, and modelers themselves strongly doubt their regional predictions, 3) There is no compelling evidence that hurricanes are becoming more frequent—or that predictions of rapid sea level rise have any validity. Unsettled is a reality check buoyed by hope, offering the truth about climate science—what we know, what we don't, and what it all means for our future. | Climate Change<br>United Nations |
|  | **A LOAD OF BOLLOCKS?: THE TRILLION DOLLAR CLIMATE SCARE** by Anika Sweetland<br><br>Anika Sweetland was ten when she first read that climate change threatened the Great Barrier Reef. The warnings followed her into adolescence: rising seas, drought, famine, climate refugees, collapsing ecosystems and a future growing steadily more dangerous. At nineteen, she enrolled in a Climate Science degree determined to help solve what she believed was humanity's greatest crisis. She studied the models, embraced the policies and worked in government writing energy policy. Climate change was not politics to her. While researching the policies intended to deliver Net Zero, she began finding things that disturbed her. One question became another. Eventually she pulled out her old university notes and began examining the foundations of the worldview she had carried for nearly three decades. What she found forced her to confront not only climate science and policy, but her own past. A Load of Bollocks? is a provocative, funny and unexpectedly moving memoir about fear, authority and what happens when certainty begins to unravel. And when the next terrifying headline tells us the end is nigh, perhaps we should all have the courage to ask: what if it's all a load of bollocks? Anika never expected to ask that question. This is the story of what happened when she did. | Climate Change<br>United Nations |
|  | **The Anxious Generation: How the Great Rewiring of Childhood Is Causing an Epidemic of Mental Illness** by Jonathan Haidt<br><br>An urgent and insightful investigation into the collapse in youth mental health, from the influential social psychologist and international bestselling author. After more than a decade of stability or improvement, the mental health of adolescents in many countries around the world deteriorated suddenly in the early 2010s. Why have rates of depression, anxiety, self-harm and suicide risen so sharply, more than doubling in many cases? | Mental Health |
|  | **The Counterweight Handbook: Principled Strategies for Surviving and Defeating Critical Social Justice Ideology - at Work, in Schools and Beyond** by Helen Pluckrose<br><br>Diversity, equity and inclusion programmes have the goal of creating a welcoming environment for everyone. However, the way they are commonly practised isn't simply an extension of past civil rights movements. Instead, they're often intertwined with Critical Social Justice (CSJ) ideology, which imposes its principles and punishes any disagreement. Mild questions about CSJ claims – like all white people being racists or all minorities being oppressed, or sex differences having no biological basis – are met with curt commands by DEI trainers and HR officers: 'Educate yourself,' 'Do the work,' 'Listen and learn.' Advancements at work and school often depend on agreeing with these beliefs. CSJ ideology poses a real threat to rights and democracy, yet speaking out risks social backlash. When choosing between compliance and ethical opposition, what's the right path? Based on the author's years of experience studying, exposing and fighting CSJ ideology and advising people and organisations struggling with it, The Counterweight Handbook is designed to help people address CSJ problems in the most ethical and effective way possible. | Critical Social Justice<br>Woke Ideology<br>Critical Theory<br>Neo-Marxism<br>Critical Race Theory<br>Gender Ideology |
|  | **The Deliberate Dumbing Down of America** by Charlotte Thomson Iserbyt<br>**[Free Download]** https://deliberatedumbingdown.com/ddd/<br><br>The book traces the history of education (mostly in government schools, but some in private schools and private home schools) from the late 1800s to 1999. The author shares peoples names, companies, government organizations, national and international groups that have had their fingers in this deliberate process over the years. It is very disturbing. Some of them were people you would have thought you could trust. The main agenda (cutting through all the smoke and mirrors) is to make the people lemming-like so that they will follow the "enlightened" toward a global, godless, Marxist-like society. Their plan has been (and still is) to do it incrementally in tiny steps, so that most people won't notice. | Education<br>Indoctrination<br>Dumbing Down<br>Corporatisation<br>Technocracy<br>Collectivisation<br>Marxism |
|  | **School World Order: The Technocratic Globalization of Corporatized Education (2019)**<br>by John Adam Klyczek<br><br>For more than twenty years, Charlotte Thomson Iserbyt has been warning the American people of the New World Order stratagem to overthrow democratically elected school boards with public-private partnerships between the federal government and globalist corporations. In this volume, John Klyczek expounds on Iserbyt's theories by tracing her work to the present moment as a last ditch effort to stop the corporatization of education. Klyczek explores how the infamous Yale Secret Society, Skull and Bones, utilized Robber Baron philanthropy and stimulus-response psychological conditioning to institute a corporatist system of workforce training for a fascistically planned economy. He then explains how this system is being upgraded to a technocratic education system of corporatist "school choice" through virtual education technologies that program students for a globally planned economy. School World Order will teach you the ulterior agenda behind the ed-tech movement: data-mining students for research and development into artificial intelligence and transhumanist biotechnologies for the establishment of an authoritarian, post-human society. | Education<br>Indoctrination<br>Dumbing Down<br>Collectivisation<br>Corporatisation<br>Technocracy<br>Transhumanism |

|---|---|---|
|  | **Vandalising Ireland: How the Government, NGOs, Academia and the Media Are Engineering a New Globalist Ireland** by Eoin Lenihan<br><br>Over the past 25 years, Ireland has become unrecognisable. Unchecked mass immigration, over-reliance on foreign direct investment, and eroded democracy have transformed one of Europe's most culturally assured nations into a faceless globalist experiment. In Vandalising Ireland, journalist and researcher Eoin Lenihan exposes how a government-funded network of NGOs, academics and the national media is conspiring to radically reshape the country — without care for the will and welfare of the native Irish. Forced settlement of large numbers of male asylum seekers into ancient, close-knit communities around the country has brought the clash between old Ireland and new into violent focus as locals and police face off. With startling evidence, Lenihan lays bare the historical and political failures leading to this make-or-break moment, and proposes a pioneering path forward: a democratic vision that blends economic self-reliance with a cultural revival from the parish up, reconnecting the Irish people to their place and nation. | |
|  | **The Devil and Karl Marx - Communism's Long March of Death, Deception, and Infiltration** by Paul Kengor **[Free Download]** https://ia600600.us.archive.org/31/items/hybridphilosophy-collection/The-Devil-and-Karl-Marx-Paul-Kengor.pdf<br><br>Two decades after the publication of The Black Book of Communism, nearly everyone should be aware of the immense evil produced by that devilish ideology first hatched when Karl Marx penned his Communist Manifesto. Not only did the horrific results of Marxism follow directly from Marx's twisted ideas, but the man himself penned some downright devilish things. Well before Karl Marx was writing about the hell of communism, he was writing about hell. No other theory in all of history has led to the deaths of so many innocents. This book is a close, careful look at the diabolical side of Karl Marx, a side of a man whose fascination with the devil and his domain would echo into the 20th century. It is a tragic portrait of a man and an ideology, a chilling retrospective on an evil that should have never been let out of its pit. | Communism<br>Marxism<br>Karl Marx |
|  | **The Devil and Bella Dodd: One Woman's Struggle Against Communism and Her Redemption** by Mary Nicholas and Paul Kengor<br><br>"Step by step, I retreated from God .... I'd join the devil himself.... There is no doubt that I traveled with him at my side and that he extorted a great price for his company." This is how Bella Dodd (1904–69) described her long battle with atheistic communism, an ideology her Church calls a "satanic scourge." She later described it as a "school of darkness," a school of "hate," a school for which she was a master organizer and infiltrator of every organization—public, private, and even ecclesiastical. She courageously left the Communist Party and its diabolical machinations. Her former communist affiliates then smeared her, dubbing her everything from a "fascist" to a "racist." Some things never change. Inspired by Bishop Fulton Sheen, Bella sought redemption. She dedicated the remainder of her life to a special penance: warning the world of the evil of communism and its plans. In the battle between the devil and Bella Dodd, Bella and her Church won. This is her inspiring story. | Communism<br>Marxism<br>Activism |
|  | **Beneath Sheep's Clothing: The Communist Takeover of Culture in the USSR & Parallels in Today's America (2022)** by Julie Behling<br><br>Today in America, we are living in a time of war. Our country has been invaded by Communist forces that are training 49.4 million American public school children to become Marxist revolutionaries. Our churches are infiltrated by wolves in sheep's clothing. And the bedrock ideologies upon which America was founded have been weakened to the point that they will die off with the older generations. This is not fiction. This is a wake-up call to the American people – to everyone with children in schools, to Christians, and to anyone who cares about freedom. The Soviet regime notoriously brainwashed its populace through its government-run schools and the media. It was ruthless in its treatment of Christians who didn't comply. And it infiltrated its churches with KGB agents cloaked as clergy. Over a century ago, the communist playbook began to be utilized on American soil. It appears to be close to reaching a pinnacle, after which there will be nothing to be done. America will fall to totalitarian rule.<br><br>But not if we do something about it. | |
|  | **To Overthrow the World: The Rise and Fall and Rise of Communism (2024)**<br>by Sean McMeekin<br><br>Russia may no longer be Communist, but Stalin is more admired there than at any time since his death in 1953. The United States has bled power and prestige in uncanny parallel with China's rise in economic strength and global influence—not least in the US itself. Liberal democratic capitalism seems moribund, while Chinese Communism assimilates the world. How and why did this happen? In his sweeping history, Sean McMeekin investigates the evolution of Communism from the seductive ideal of a classless society into the ruling doctrine of tyrannical regimes. From Marx's writings to the global resurgence of Communism in the twenty-first century, McMeekin argues that, despite the endurance of this political system, it remains deeply unpopular. Where it has arisen, it has always arisen by force.Blending narrative with cutting-edge scholarship, To Overthrow the World revolutionises our understanding of Communism—an idea that seemingly cannot die. | |
|  | **Manifesto of the Communist Party by Karl Marx & Frederick Engels [Free Download]**<br>https://www.marxists.org/archive/marx/works/1848/communist-manifesto/index.htm<br><br>The Communist Manifesto is one of the most influential political documents in history. It outlines the foundational principles of Marxist philosophy and provides an analysis of the class struggles of the time. The Communist Manifesto has been translated into over 100 languages and has been studied around the world in universities, schools, and other educational institutions. It is a powerful tool for understanding the development of the modern world. The Communist Manifesto begins by outlining the various classes of people in society and how they interact with each other. It explains the exploitation of the working class by the ruling class, and the consequences of this exploitation. It goes on to discuss the need for a revolutionary class struggle and the formation of a new society in which all people are equal and free. The manifesto ends with a call to action, urging the proletariat to take up arms and fight for a better world. It has inspired generations of activists and intellectuals and has been the source of much debate and discussion. | Communism<br>Destroy Family<br>Globalism |

|  | **The Black Book of Communism: Crimes, Terror, Repression** by Stephane Courtois<br>**[Free Download]** https://archive.org/details/BlackBookOfCommunism<br><br>Already famous throughout Europe, this international bestseller plumbs recently opened archives in the former Soviet bloc to reveal the actual, practical accomplishments of Communism around the world: terror, torture, famine, mass deportations, and massacres. Astonishing in the sheer detail it amasses, the book is the first comprehensive attempt to catalogue and analyze the crimes of Communism over seventy years. As the death toll mounts—as many as 25 million in the former Soviet Union, 65 million in China, 1.7 million in Cambodia, and on and on—the authors systematically show how and why, wherever the millenarian ideology of Communism was established, it quickly led to crime, terror, and repression. | Communism |
|  | **The Genesis of Gender: A Christian Theory** by Abigail Favale<br><br>The question of gender--who we are as men and women--has never been more pressing, or more misunderstood. Weaving personal experience with expert knowledge, Dr. Abigail Favale provides an in-depth yet accessible account of the gender paradigm: a framework for understanding reality and identity that has recently risen to prominence. Favale traces the genealogy of gender to its origins in feminism and postmodern thought, describing how gender has come to eclipse sex, and how that shift is reshaping language, law, medicine, sexuality, and our own self-perceptions. With substance, clarity, and compassion, Favale teases out the hidden assumptions of the gender paradigm and exposes its effects. Yet this book is not merely an exposé--it is also a powerful, moving articulation of a Christian understanding of reality: a holistic paradigm that proclaims the dignity of the body, the sacramental meaning of sexual difference, and the interconnectedness of all creation. | Gender Ideology<br>Catholic Social Teaching |
|  | **WHEN HARRY BECAME SALLY** by Ryan T. Anderson<br><br>When Harry Became Sally provides thoughtful answers to questions arising from our transgender moment. Drawing on the best insights from biology, psychology, and philosophy, Ryan Anderson offers a nuanced view of human embodiment, a balanced approach to public policy on gender identity, and a sober assessment of the human costs of getting human nature wrong.Drawing on the best insights from biology, psychology, and philosophy, Ryan offers a nuanced view of human embodiment, a balanced approach on gender, and a sober view of the costs of getting human nature wrong. Can a boy be "trapped" in a girl's body? Can modern medicine "reassign" sex? Is our sex "assigned" to us in the first place? What is the most loving response to a person experiencing a conflicted sense of gender? What should our law say on matters of "gender identity"? | Gender Ideology |
|  | **The Long March - How the left won the culture war and what to do about it by** Marc Sidwell **[Free Download]**<br>https://www.newcultureforum.org.uk/_files/ugd/e42793_a246d5d7f7d94e569add03c4cb6de684.pdf<br><br>This book uncovers the truth: a tangled history in which active subversion runs alongside unintended consequences and missed opportunities. Armed with a clearer understanding of the left's long march, it also reveals new possibilities for fighting back. | |
|  | **THE WOKE WARPATH: How Marxists Use Race and Gender to Break America (2022)**<br>by Logan Lancing<br><br>We are in the middle of the largest cultural revolution ever in America. Radical activists redefine our language, weaponize our desires and fears, and coerce all of us to hammer incessantly at the pillars of Western civilization. Armed with conspiratorial claims, these foot soldiers practice a radical politics of race, gender, and identity. They morally abuse reality in pursuit of their ultimate goal—the dismantling of America. The book argues that these activists have spent more than a century planting their Marxian and postmodern philosophical traditions into bedrock American institutions, cultivating a pernicious form of social justice that seeks to break the liberal order. These Critical Marxists have captured our laws, schools, and workplaces. They have created a new, perverted moral orthodoxy that is changing how we police our streets, educate our children, and perceive reality. The consequences of such targeted destruction are widespread and real. | |
|  | **Hold On to Your Kids: Why Parents Need to Matter More Than Peers (2006)**<br>by Gordon Neufeld & Gabor Maté MD<br><br>Shines a light on one of the most misunderstood trends of our time: how the influence of peers, magnified by social media and video game culture, is replacing parents in the lives of children, and what parents can do about it—now featuring a new chapter. WINNER OF THE NATIONAL PARENTING PUBLICATIONS GOLD AWARD. Children take their lead from their friends: Being "cool" matters more than anything else. Shaping values, identity, and codes of behavior, peer groups are often far more influential than parents. But this situation is far from natural, and it can be dangerous—it undermines family cohesion, interferes with healthy development, and fosters a hostile and sexualized youth culture. Children end up becoming conformist, anxious, and alienated. Acclaimed physician and bestselling author Gabor Maté joins forces with psychologist Gordon Neufeld to pinpoint the causes of this breakdown and offer practical advice on how to "reattach" to your children and earn back their loyalty and love. By helping to reawaken our instincts, Neufeld and Maté empower parents to be what nature intended: a true source of enrichment, security, and warmth for their children. | |
|  | **Explaining Postmodernism** by Stephen Hicks<br>**[Free Audiobook]** https://www.youtube.com/watch?v=qQcNjHNXnEE<br><br>Tracing postmodernism from its roots in Jean-Jacques Rousseau and Immanuel Kant to their development in thinkers such as Michel Foucault and Richard Rorty, philosopher Stephen Hicks provides a provocative account of why postmodernism has been the most vigorous intellectual movement of the late 20th century. Why do skeptical and relativistic arguments have such power in the contemporary intellectual world? Why do they have that power in the humanities but not in the sciences? Why has a significant portion of the political Left — the same Left that traditionally promoted reason, science, equality for all, and optimism — now switched to themes of anti-reason, anti-science, double standards, and cynicism? Explaining Postmodernism is intellectual history with a polemical twist, providing fresh insights into the debates underlying the furor over political correctness, multiculturalism, and the future of liberal democracy. | Postmodernism |

|---|---|---|
|  | **The Diversity Delusion: How Race and Gender Pandering Corrupt the University and Undermine Our Culture (2018) -** by Heather Mac Donald<br><br>America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined humanistic values, fueled intolerance, and widened divisions in our larger culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling, or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges these campus orthodoxies is silenced with brute force. | Critical Social Justice<br>Woke Ideology |
|  | **Siecus Circle: A Humanist Revolution (1977)** by Claire Chambers<br><br>"What do Vice President Walter Mondale, Madalyn Murray O'Hair, and John D. Rockefeller III have in common? What philosophy guides the Sex Information and Education Council of the United States, Planned Parenthood, and the A.C.L.U.? The answer to both these questions is humanism, a little known philosophical movement that is increasingly influential in government, churches, schools, and the communications media. Until the publication of The SIECUS Circle, there was no convenient guide to the humanist organizations that promote abortion, atheism, forced sex education in the public schools, homosexuality, pornography, and a permissive attitude toward drugs. This book is indispensable to anyone seeking to understand the decline of the American Republic." | |
|  | **The Psychology of Totalitarianism (2024) by** Mattias Desmet<br><br>World-renowned Professor of Clinical Psychology Mattias Desmet deconstructs the societal conditions that allow collective hypnosis to take hold. By analysing the global pandemic, he identifies the phenomenon of 'mass formation' and illustrates how humanity is being forcibly, unconsciously led into a reality of technocratic totalitarianism, which aggressively excludes alternative views and relies on destructive groupthink, vilifying non-conformist thought as 'dissident.' Building on Hannah Arendt's The Origins of Totalitarianism, Desmet offers a sharp critique of the cultural 'groupthink' that existed pre-pandemic but has steadily and inexorably advanced during the Covid crisis. He cautions against the dangers of our current societal landscape, media consumption, and reliance on manipulative technologies, offering simple solutions – both individual and collective – to prevent the willing sacrifice of our ability to think critically. The Psychology of Totalitarianism serves as an indispensable and fundamental guide to understanding this key moment in history. | |
|  | **Controligarchs: Exposing the Billionaire Class, their Secret Deals, and the Globalist Plot to Dominate Your Life (2023)** by Seamus Bruner<br><br>While billionaires like George Soros, Bill Gates, and Warren Buffett are well known as left-wing megadonors transforming the country's politics, few Americans know about Arabella Advisors, a "dark money" operation that channels much of this money into particular causes via pop-up groups designed to look like grassroots outfits. Citizens will be shocked to learn how Arabella's empire secretly operates using arrangements that produce the darkest of "dark money." Thanks to the author and his colleagues at the Capital Research Center, even the mainstream press have begun to report on this scandalous story. Arabella is a major player in battles over Supreme Court nominations, environmentalism, abortion, Medicare for All, fake local news outlets, and much more. In the 2018 election cycle, Arabella's nonprofits took in $1.2 billion, more than double the fundraising of the Democratic National Committee and the Republican National Committee combined. In the 2020 election cycle, Arabella's fundraising spiked to $2.4 billion. | |
|  | **The Invisible Coup: How American Elites and Foreign Powers Use Immigration as a Weapon (2026)** by Peter Schweizer<br><br>Every day, ICE is arresting hundreds of illegal immigrants with a criminal record. They didn't just come here. They were sent here. Our debates about immigration revolve around what happens with immigrants once they arrive. We need to start talking about who is sending them and why. For decades, establishment elites sold us the story of immigration as a compassionate renewal of the American Dream within a harmonious melting pot. But beneath that narrative lies a different reality: Mass migration has morphed into the most powerful political weapon ever aimed at the United States, one engineered by elites at home and aided by adversaries abroad. Now Peter Schweizer, the bestselling investigative journalist of our time, is blowing the lid off this whole series of schemes. Backed by years of forensic fieldwork and a trove of confidential documents and intercepted communications, linking political leaders, global NGOs, and even drug cartels, Schweizer detonates a political shock wave eclipsing his past bombshells, revelations that have sparked FBI probes and bipartisan reforms. | |
|  | **Arabella: The Dark Money Network of Leftist Billionaires Secretly Transforming America (2024)** by Scott Walter<br><br>While billionaires like George Soros, Bill Gates, and Warren Buffett are well known as left-wing megadonors transforming the country's politics, few Americans know about Arabella Advisors, a "dark money" operation that channels much of this money into particular causes via pop-up groups designed to look like grassroots outfits. Citizens will be shocked to learn how Arabella's empire secretly operates using arrangements that produce the darkest of "dark money." |  | **COVID-19: The Great Reset** by Klaus Schwab and Thierry Malleret<br>**[Free Download]** https://dn710007.ca.archive.org/0/items/covid-19_-the-great-reset-klaus-schwab_202311/covid-19_-the-great-reset-klaus-schwab.pdf | |
| | "COVID-19: The Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. The authors explore what the root causes of these crisis were, and why they lead to a need for a Great Reset.Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out. "A call for political change in the post-pandemic world"-- Ivonne Martinez, La Razon (Mexico)"History has shown, the book argues, that pandemics are a force for radical and lasting change"-- Mustafa Alrawi, The National (UAE) | |
|  | **The Great Narrative (The Great Reset) (2021)** by Klaus Schwab, Thierry Malleret<br>**[Free Download]** https://archive.org/details/the-great-narrative-klaus-schwab | |
| | The Great Narrative is a guide for anyone seeking to better understand how the world has evolved since the pandemic started and what solutions can make us more resilient, equitable and sustainable. The book recognizes that the problems for which we collectively must find solutions are both major and manifold. Vital issues abound: economic, environmental, geopolitical, societal and technological. But solutions do exist and are within our grasp. The Great Narrative proposes some hopeful and inspiring narratives around them. It asserts that human creativity, ingenuity and innate sociality will prevail, and it offers a comprehensive framework to explain why. Professor Klaus Schwab is the Founder and Executive Chairman of the World Economic Forum. He is a life-long advocate of “stakeholder capitalism”, the author of various books, including The Fourth Industrial Revolution, and the co-author (with Thierry Malleret) of the international best-seller COVID-19: The Great Reset. | |
|  | **Technocracy: The Hard Road to World Order (2019)** by Patrick M. Wood **[Free Download]**<br>https://archive.org/details/patrick-wood-technocracy-the-hard-road-to-world-order-2018-libgen.li | |
| | Traces the steps and developments that led to the UNs' Sustainable Development as an outgrowth of historic Technocracy from the 1930s. UN programs such as Agenda 2030, New Urban Agenda and the Paris Climate Agreement are all working together to displace Capitalism and Free Enterprise as the world's principal economic system. As a resource-based economic system, Sustainable Development intends to take control of all resources, all production and all consumption on planet earth, leaving its inhabitants to be micro-managed by a Scientific Dictatorship. Topics covered include the devolution of federal governments combined with the rise of global Smart Cities. Tools are examined, like ubiquitous surveillance, collaborative governance, Public-Private Partnerships, Reflexive Law, Fintech, including crypto currencies and the drive toward a cashless society. The spiritual aspect of Sustainable Development is also explored as an important component of manipulation. Looking underneath the cover of globalization, Wood shatters the false narrative of a promised Utopia and exposes the true nature of the deception used to promote this new economic order. | |
|  | **Tragedy and Hope 101: The Illusion of Justice, Freedom, and Democracy (2018)** by Joseph Plummer **[Free Download]** https://joeplummer.com/ | |
| | The information in this book contradicts nearly everything you’ve been led to believe about democracy and representative government. Based on the groundbreaking research of respected historian Carroll Quigley, Tragedy and Hope 101 reveals an unimaginably devious political system. The goal of those who control the system, in Quigley’s own words, is to dominate “all habitable portions of the world.” Using deception, theft, and violence, they have achieved more toward this goal than any rulers in human history. Fortunately, the information age has dramatically undermined their plans. The immorality of their system (and those who serve it) has become nearly impossible to hide. Awareness is spreading, resistance is growing, and tragedy is yielding to hope. | |
|  | **Tragedy and Hope - A History of the World in our Time (1966)** by Carroll Quigley **[Free Download]**<br>https://ia800707.us.archive.org/16/items/TragedyAndHope_501/CarrollQuigley-TragedyAndHope.pdf | |
| | TRAGEDY AND HOPE shows the years 1895-1950 as a period of transition from the world dominated by Europe in the nineteenth century to the world of three blocs in the twentieth century. With clarity, perspective, and cumulative impact, Professor Quigley examines the nature of that transition through two world wars and a worldwide economic depression. As an interpretative historian, he tries to show each event in the full complexity of its historical context. The result is a unique work, notable in several ways. It gives a picture of the world in terms of the influence of different cultures and outlooks upon each other; it shows, more completely than in any similar work, the influence of science and technology on human life; and it explains, with unprecedented clarity, how the intricate financial and commercial patterns of the West prior to 1914 influenced the development of today's world. | |
|  | **Manufactured Crisis: The War to End America (2024)**<br>by James Simpson | |
| | America is facing mounting crises from all directions, deliberately manufactured by our enemies both within and without to destroy America once and for all.<br>Few could have imagined ten years ago where we’d be in America today: We are confronted on all sides by interminable crises that threaten the very fabric of our nation—from a border flooded with millions of migrants from all over the world, to a fentanyl crisis killing more American youths every year than the past three wars combined. Radical transgender activism and other cultural insanity has pushed more youths to commit suicide than at any other time in history. It seems as though the world is rapidly coming unglued. But it is actually a diabolical plan that has been operating for over a hundred years and is now showing its face. This book describes this plan in excruciating detail and shows us a path out—if we’re willing to take it. | |

|---|---|---|
|  | **UNESCO ITS PURPOSE AND ITS PHILOSOPHY (1946)** by Julian Huxley<br>**[Free Download]** https://unesdoc.unesco.org/ark:/48223/pf0000068197 | |
| | Huxley argues that UNESCO's dual mandate—to serve the United Nations' long-term world ends for humanity as a whole and to foster education, science, and culture in the broadest sense—required a coherent working philosophy beyond the Constitution's aims of advancing peace and common welfare through mutual knowledge, free exchange of ideas, equal educational opportunity, and the diffusion of culture. Rejecting particular religions, political dogmas, materialism, or static ideals, he proposed a "scientific world humanism" that is universal (treating all peoples and individuals as equals in dignity, respect, and opportunity), scientific in method and foundations, monistic in embracing material and spiritual aspects, and evolutionary in outlook: viewing human destiny as the conscious realization of maximum progress in minimum time, with humanity as the sole trustee of further evolutionary advance and UNESCO tasked with facilitating the emergence of a single world culture (with its own ideas and purpose) to build intellectual and moral solidarity, prevent war by constructing peace in the minds of men, and promote directed human development and global welfare. | |
|  | **The Tavistock institute for human relations: Shaping the Moral, Spiritual, Cultural, Political and Economic Decline of the United States (2024)** by John Coleman<br>**[Free Download]** https://ia802805.us.archive.org/23/items/Tavistock_201601/Coleman_John_-_The_Tavistock_Institute_of_Human_Relations.pdf | |
| | The Tavistock Institute for Human Relations has had a profound effect on the moral, spiritual, cultural, political and economic policies of the United States of America and Great Britain. It has been at the forefront of the attack on the American Constitution. No group produced more propaganda to encourage the United States to participate in the First World War at a time when the majority of the American people were opposed to it. The same tactics were used by Tavistock's social scientists to get the US into World War II, Korea, Vietnam, Serbia and the two wars against Iraq. Tavistock began as a propaganda creation and dissemination organization at Wellington House, London, in the run-up to the First World War, what Toynbee called 'that black hole of disinformation'. Wellington House became the Tavistock Institute and shaped the destinies of Germany, Russia, Britain and the United States in a very controversial way. The people of these nations did not know that they were being 'brainwashed'. The origins of 'mind control', 'inner directional conditioning' and mass 'brainwashing' are explained in an easy-to-understand book written with great authority. The fall of the Catholic dynasties, the Bolshevik revolution, the First and Second World Wars which saw the destruction of ancient alliances and frontiers, the convulsions of religion, the decline of morality, the destruction of family life, the collapse of the economic and political processes, the decadence in music and art can all be attributed to the mass indoctrination (mass brainwashing) practiced by the social scientists of the Tavistock Institute. Among the members of the Tavistock faculty was Edward Bernays, Sigmund Freud's nephew.Without Tavistock, there would have been no First and Second World Wars, no Bolshevik revolution, no wars in Korea, Vietnam, Serbia and Iraq. Without Tavistock, the United States would not be hurtling down the road to dissolution and collapse. | |
|  | **Tavistock Institute: Social Engineering the Masses (2015) by Daniel Estulin**<br>**[Free Download]** https://archive.org/details/tavistock-institute-social-engineering-the-masses-daniel-estulin | |
| | The real story behind the Tavistock Institute and its network, from an intriguing best-selling author. The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them. | |
|  | **The Limits to growth; a report for the Club of Rome's project on the predicament of mankind by** Meadows, Donella H; Club of Rome<br>**[Free Download]** https://archive.org/details/TheLimitsToGrowth | |
| | The Limits to Growth is a 1972 book about the computer modeling of exponential economic and population growth with finite resource supplies. Funded by the Volkswagen Foundation and commissioned by the Club of Rome it was first presented at the St. Gallen Symposium. Its authors were Donella H. Meadows, Dennis L. Meadows, Jørgen Randers, and William W. Behrens III. The book used the World3 model to simulate the consequence of interactions between the Earth's and human systems. At the time of publication, this text had a significant impact on the desire to curb population growth. In time, the model used was found to be flawed, with the earth successfully supporting a much larger population than envisaged with lower levels of hunger than we have ever known in the modern era. | |
|  | **The Population Bomb (1968)** by Paul R Ehrlich | |
| | "The Population Bomb" by Paul Ehrlich stirred worldwide fear over the issue of overpopulation when it was published in 1968. Ehrlich's book warned of a future where the world's population would outstrip available resources, leading to widespread famine and societal collapse. His stark predictions captured the attention of the public and policymakers, sparking important discussions about sustainability and the environment. Despite some criticisms and the fact that some of his specific predictions did not come to pass, Ehrlich's work remains a seminal piece in the ongoing dialogue about population growth and its implications for the planet. | |

|  | **The First Global Revolution: A Report by the Council of the Club of Rome (1991)** by Alexander King & Bertrand Schneider **[Free Download]** https://archive.org/details/the-first-global-revolution-a-report-by-the-council-of-the-club-of-rome-alexande | |
| | The authors offer a warning and an approach to a possible solution to world problems. Topics covered by this book include the need for the world to convert from a military to a civil economy, the recognition of the disastrous short-term effects of exploitation by First World countries of Third World poverty and need, and the containment of global warming: the need to reduce global emissions of carbon dioxide, to encourage reforestation, to conserve traditional forms of energy and develop alternatives. Page 115 contains "In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill..... All these dangers are caused by human intervention and it is only through changed attitudes and behaviour that they can be overcome. The real enemy, then, is humanity itself." - This would be the strategy for Agenda 21. | |
|  | **The Earth Brokers: Power, Politics and World Development**<br>by Pratap Chatterjee and Matthias Finger | |
| | Those of us who have watched the process have said that the Earth Summit has failed ... Multinational corporations, the United States, Japan, the World Bank, the International Monetary Fund have got away with what they always wanted ... the Summit has ensured increased domination by those who already have power. Worse still, it has robbed the poor of the little power they had. It has made them victims of a market economy that has thus far threatened our planet ... few negotiators realised how critical their decisions are to our generation. By failing to address such fundamental issues as militarism, the regulation of transnational corporations, the democratisation of international aid agencies and the inequitable terms of trade, my generation has been damned." - Wagaki Mwangi, Kenyan, Youth delegate to the Earth Summit. | |
|  | **Our Common Future** by World Commission On Environment and Development<br>**[Free Download]** https://digitallibrary.un.org/record/139811?v=pdf | |
| | In 1983, the U.N. General Assembly created the World Commission on Environment and Development, an independent committee of twenty-two members, headed by Gro Harlem Brundtland, the Prime Minister of Norway. Designed to examine global environment and development to the year 2000 and beyond, the commission seeks to reassess critical problems, to formulate realistic proposals for solving them, and to raise the level of understanding and commitment to the issues of environment and development. Rather than presenting a gloom and doom report about the destruction of natural resources, Our Common Future offers an agenda advocating the growth of economies based on policies that do not harm, and can even enhance, the environment. The commission recognizes that the time has come for a marriage of economy and ecology. | |

| | Training material on learning about Technocracy. | |
|  | **How the British Invented Communism (And Blamed It on the Jews)** by Richard Poe | |
| | In 1920, Winston Churchill announced that a cabal of godless “International Jews” had incited the Bolshevik Revolution. Why did he say this? It turns out Churchill was covering for the real perpetrators: Great Britain’s own secret intelligence services. In his new book, How the British Invented Communism (And Blamed It on the Jews), New York Times-bestselling author Richard Poe reveals that the same secret network that brought down King Louis XVI and Tsar Nicholas II also raised up Klaus Schwab and his World Economic Forum. Poe weaves a riveting tale of intrigue, espionage, seduction, assassination, and mysterious secret societies working in the shadows for centuries—a story that has never before been told. | |
|  | **The Road to Serfdom by F.A. Hayek**<br>**[Free Download]** https://archive.org/details/in.ernet.dli.2015.218162 | |
| | The Road to Serfdom remains one of the all-time classics of twentieth-century intellectual thought. For over half a century, it has inspired politicians and thinkers around the world, and has had a crucial impact on our political and cultural history. With trademark brilliance, Hayek argues convincingly that, while socialist ideals may be tempting, they cannot be accomplished except by means that few would approve of. Addressing economics, fascism, history, socialism and the Holocaust, Hayek unwraps the trappings of socialist ideology. He reveals to the world that little can result from such ideas except oppression and tyranny. Today, more than fifty years on, Hayek's warnings are just as valid as when The Road to Serfdom was first published. | |
|  | **Brave New World (1932)** by Aldous Huxley<br>**[Free Download]** https://archive.org/details/ost-english-brave_new_world_aldous_huxley<br>**[Free Audiobook]** https://www.youtube.com/watch?v=lZPeerOxMeI | |
| | The novel follows Bernard Marx, a discontented member of the elite Alpha caste, and his interactions with John, a "savage" raised outside this controlled civilization. Through their perspectives, Huxley critiques the loss of personal autonomy, the suppression of critical thinking, and the dangers of prioritizing technological progress over humanity's moral and emotional depth. Huxley's work serves as a powerful commentary on consumer culture, totalitarianism, and the consequences of scientific overreach. Its thought-provoking narrative continues to resonate as a cautionary tale about the costs of sacrificing individuality and authentic human connections for societal conformity and artificial happiness. | |

|  | **Ninesteen Eighty Four** by George Orwell **[Free Download]** https://dn760002.eu.archive.org/0/items/NineteenEightyFour-Novel-GeorgeOrwell/orwell1984.pdf<br>**[Free Audiobook]** https://www.youtube.com/watch?v=Fhpm8bIpYGg | |
| | The year is 1984 and war and revolution have left the world unrecognisable. Great Britain, now known as Airstrip One, is ruled by the Party, led by Big Brother. Mass surveillance is everything and The Thought Police are employed to ensure that no individual thinking is allowed. Winston Smith works at The Ministry of Truth, carefully rewriting history, but he dreams of freedom and of rebellion. It is here that he meets and falls in love with Julia. They start a secret, forbidden affair - but nothing can be kept secret, and they are forced to face consequences more terrifying than either of them could have ever imagined. In this new edition of a modern classic, Alex Massie's introduction highlights the importance that Jura had on the writing of one of the twentieth century's most important works of fiction. | |
|  | **Animal Farm** by George Orwell<br>**[Free Download]** https://archive.org/details/AnimalFarmByGeorgeOrwell<br>**[Free Audiobook]** https://www.youtube.com/watch?v=p63xpTkutGw | |
| | Orwell's powerfully unnerving and enduring allegory of oppression and rebellion. All animals are equal, but some animals are more equal than others ... When the lazy and drunken Mr Jones of Manor Farm forgets to feed his livestock the down-trodden and over-worked animals unite to take back their freedom. Led by the pigs Napoleon and Snowball they imagine this rebellion as the start of a life of prosperity and plenty. But as a cunning, brutal, hidden elite begins to take control, something new and unexpected emerges ... | |
|  | **The Napoleon of Notting Hill** by G. K. CHESTERTON<br>**[Free Download]** https://www.gutenberg.org/files/20058/20058-h/20058-h.htm<br>**[Free Audiobook]** https://youtu.be/0jlbpMhMNxo | |
| | In the whimsical world of "The Napoleon of Notting Hill" by G.K. Chesterton, a new king ascends the throne of England through a random lottery, and to everyone's surprise, he takes nothing seriously, even his own kingship. With a mischievous flair, King Auberon Quin decrees the revival of medieval heraldry and insists that every London neighborhood must proudly fly its own colors. The commercial interests play along, as long as it doesn't affect their bottom line. However, when Adam Wayne, a young and passionate resident of Notting Hill, takes the King's jests seriously, defending his neighborhood's colors becomes a matter of utmost importance. As Adam's earnestness clashes with the laughter of the city, surreal battles unfold, leading to a surprising alliance between the light-hearted King and the impassioned Wayne. In a world where satire and faith intersect, "The Napoleon of Notting Hill" is a captivating exploration of the human spirit, where laughter, love, and valor converge in unexpected ways. | |
|  | **Red Pandemic: The Global Marxist Cult (2024)** by Emmet Connor (Author) | |
| | We can see that the world has been undergoing profound, extraordinary changes in recent times. We have also seen that these colossal changes are not merely circumstantial, or the result of some sort of organic societal evolution, or other factors beyond humanity's control; but changes that have been encouraged and supported by certain motivated movements, organisations, and individuals. In 2020 we saw the Covid Pandemic became a universally live-changing event; a situation that impacted virtually the population of the whole world. The Black Lives Matter protests and riots of the same year dominated the headlines in the Western world, creating repercussions in many countries, though most intensely in the U.S. We've seen the Climate alarmist movement gain even more momentum; that will lead to inevitable global catastrophe unless immediate action is taken. | |
|  | **The Captive Mind (1953)** by Czeslaw Milosz<br>**[Free Download]** https://www.bard.edu/library/pdfs/archives/2024/10/Milosz_TheCaptiveMind.pdf | |
| | Written in Paris in the early 1950s, this book created instant controversy in its analysis of modern society that had allowed itself to be hypnotized by socio-political doctrines, and to accept totalitarian terror on the strength of a hypothetical future. | |
|  | **The Long March: How the Cultural Revolution of the 1960s Changed America**<br>**by** Roger Kimball (Author) | |
| | In The Long March, Roger Kimball, shows how the "cultural revolution" of the 1960s and '70s took hold in America, lodging in our hearts and minds, and affecting our innermost assumptions about what counts as the good life. Kimball believes that the counterculture transformed high culture as well as our everyday life in terms of attitudes toward self and country, sex and drugs, and manners and morality. Believing that this dramatic change "cannot be understood apart from the seductive personalities who articulated its goals," he intersperses his argument with incisive portraits of the life and thought of Allen Ginsberg, Norman Mailer, Timothy Leary, Susan Sontag, Eldridge Cleaver and other "cultural revolutionaries" who made their mark. For all that has been written about the counterculture, until now there has not been a chronicle of how this revolutionary movement succeeded and how its ideas helped provoke today's "culture wars." The Long March fills this gap with a compelling and well-informed narrative that is sure to provoke discussion and debate. | |
|  | **The Memo: Twenty Years Inside the Deep State Fighting for America (2020)** by Rich Higgins - **Link to the actual memo that forms the basis of the book:** https://unconstrainedanalytics.org/wp-content/uploads/2018/09/Political-Warfare.pdf | |
| | After three short months in 2017 serving on the National Security Council under President's Trump National Security Advisor H.R. McMaster, Rich was fired for telling the truth. He sounded the alarm on the Deep State coup to remove President Trump and of the subversives within the ranks. Rich set it all down in his famous memo - POTUS and Political Warfare. And for this, he paid for it with his job. At the time, Rich was labeled as a "conspiracy theorist" but as events played out over the following three years, Rich has been fully vindicated. The Memo is the riveting story of how Rich Higgins' twenty year career fighting for America First within the bowels of the DoD and Pentagon bureaucracy enabled him to discern - well before anyone else - the Deep State's efforts to stop and ultimately remove the President from office. No one was more bold - or more frighteningly accurate - in anticipating the ferocity of the Deep State's assault on the Constitution and President Trump. | |

|---|---|---|
|  | **Woke, Inc. (2022)** by Vivek Ramaswamy<br>**[Free Audiobook]** https://www.youtube.com/watch?v=kAgK1bXpShs | |
| | The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, corporate elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we lack both. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. This book rips back the curtain on the new corporatist agenda. Corporate elites may want to sort us into demographic boxes, but we don't have to stay there. Woke, Inc. begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be a member of society in 2021 – a journey that begins with cynicism and ends with hope. | |
|  | **Hidden Agender: Transgenderism's Struggle Against Reality** by Gerard Casey | |
| | Gerard Casey develops a timely and provocative defence of free speech and toleration against the transgenderist ideology that has infiltrated so much of the media, the political establishment and the law. He provides a compelling critique of the transgender ideologists and trans activists, and the new reactionary form of legal intolerance of our right to free thought and free speech. As a libertarian, Casey believes that we should be free to say and do whatever we wish provided that, in so doing, we do not perpetrate violence, or threaten to perpetrate violence, against the person or property of another. The fundamental objection is rather to individuals being forced, on pain of legal or social sanctions, to believe (or to pretend to believe) what to them is patently false, namely, that a man can become a woman or a woman a man, and to be legally obliged to treat those who claim to have transitioned from one sex to another as if they really had managed to do so. Drawing on extensive research, both scientific and anecdotal, Hidden Agender is a robust defence of free speech and tolerance against the combined forces of prejudice, wokeness and legal intimidation. | |
|  | **The Gulag Archipelago 1918-1956 Vol I** by Aleksandr Solzhenitsyn<br>**[Free Audiobook]** https://archive.org/details/TheGulagArchipelago | |
| | A vast canvas of camps, prisons, transit centres and secret police, of informers and spies and interrogators but also of everyday heroism, The Gulag Archipelago is Aleksandr Solzhenitsyn's grand masterwork. Based on the testimony of some 200 survivors, and on the recollection of Solzhenitsyn's own 11 years in labour camps and exile, it chronicles the story of those at the heart of the Soviet Union who opposed Stalin, and for whom the key to survival lay not in hope but in despair. | |

# Teacher Training Texts

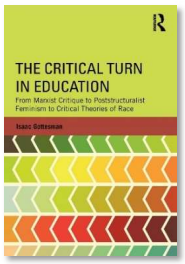

| | | |
|---|---|---|
|  | **Teaching for Social Justice and Sustainable Development Across the Primary Curriculum,** Edited By Anne Marie Kavanagh, Fionnuala Waldron, Benjamin Mallon<br>Free to view online at:<br>https://ebrary.net/174167/education/teaching_for_social_justice_and_sustainable_development_across_the_primary_curriculumacting_for_a_b<br><br>This volume supports educators in integrating meaningful education for social justice and sustainability across a wide range of curricular subjects by drawing on educational theory, innovative pedagogical approaches and creative ideas for teaching and learning. Both practical and theoretical in its approach, it addresses subject areas ranging from mathematics to visual arts to language teaching. Chapters provide subject entry points for teachers seeking to embed social justice and sustainability principles and pedagogies into their work. Transferable across various areas of learning, a range of pedagogical approaches are exemplified, ranging from inquiry approaches to ethical dilemmas to critical relational pedagogies. Ready-to-use teaching exemplars, activities and resources address issues which are of interest and relevance to children's lives, including gender stereotyping, racism, heterosexism, climate change and species extinction. Practical guidance is provided on how to engage children in dialogue and reflection on these complex issues in a safe and ethical way. This accessible and unique volume is essential reading for student teachers, teachers, educational leaders, teacher educators and anyone interested in inspiring children to work towards creating a more socially just and sustainable world. | Education<br>Teacher Training<br>Critical Social Justice<br>Woke Ideology<br>Critical Pedagogy<br>Sustainable Development<br>Indoctrination<br>UNESCO |
|  | **Teaching the Sustainable Development Goals to Young Citizens (10-16 years) - A Focus on Teaching Hope, Respect, Empathy and Advocacy in Schools.** Edited By Anne M. Dolan<br><br>With the current climate and economic crises, education for sustainability has never been more critical. This timely and essential book encourages readers to rethink our current values systems and to interrogate common assumptions about our world. Written for all educators with an interest in sustainability, chapters address several possible future scenarios for our planet, allowing readers to make more educated choices about sustainability and to transfer this knowledge to students within the classroom. Each chapter focuses on a specific Sustainable Development Goal. Beginning with a brief historical and theoretical introduction to contextualise the goal, chapters then showcase the practical activities, case studies and exemplars that teachers can adopt when teaching. Topics explored include, but are not limited to: Poverty, Renewable energy, Climate change, Peace and justice, Human rights, Access to education. This book is an essential classroom resource for any teacher or student teacher wishing to promote the Sustainable Development Goals and to teach for a better and brighter future. | Education<br>Teacher Training<br>Critical Social Justice<br>Woke Ideology<br>Critical Pedagogy<br>Gender Ideology<br>Sustainable Development<br>Indoctrination<br>UNESCO |

# Reference Texts

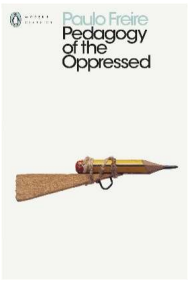

**Sexual Behaviour in the Human Male** by Alfred Kinsey
**[Free Download]** https://archive.org/details/in.ernet.dli.2015.187552/page/n193/mode/2up

Alfred C. Kinsey and his fellow researchers sought to accumulate an objective body of facts regarding sex. Originally an entomologist, Kinsey applied his fieldwork taxonomy methods to human sexuality. With 5,300 research subjects, his undertaking was the largest sex research project of its time, transforming the field. With scientific exactness, Kinsey describes the methodology, sampling, coding, interviewing, and statistical analyses, and then examines factors and sources of sexual outlet. Told through men's experiences of sexuality and reproduction, Sexual Behavior in the Human Male is a remarkable rumination on American society and science in the early 20th century.

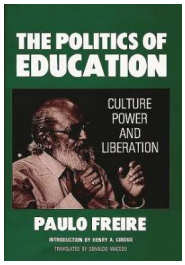

**The Critical Turn in Education: From Marxist Critique to Poststructuralist Feminism to Critical Theories of Race (Critical Social Thought)** by Isaac Gottesman

The Critical Turn in Education traces the historical emergence and development of critical theories in the field of education, from the introduction of Marxist and other radical social theories in the 1960s to the contemporary critical landscape. The book begins by tracing the first waves of critical scholarship in the field through a close, contextual study of the intellectual and political projects of several core figures including, Paulo Freire, Samuel Bowles and Herbert Gintis, Michael Apple, and Henry Giroux. Later chapters offer a discussion of feminist critiques, the influx of postmodernist and poststructuralist ideas in education, and critical theories of race.

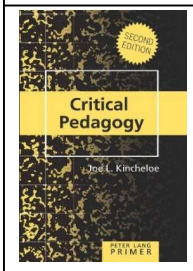

**Pedagogy of the Oppressed (2017)** by Paulo Freire
**[Free Download]** https://archive.org/details/PedagogyOfTheOppressed-English-PauloFriere/mode/2up
**[Free Audiobook]** https://www.youtube.com/watch?v=9NzKrFAaCsA

Arguing that 'education is freedom', Paulo Freire's radical international classic contends that traditional teaching styles keep the poor powerless by treating them as passive, silent recipients of knowledge. Grounded in Freire's own experience teaching impoverished and illiterate students in his native Brazil and over the world, this pioneering book instead suggests that through co-operation, dialogue and critical thinking, every human being can develop a sense of self and fulfil their right to be heard.

**The Politics of Education: Culture, Power and Liberation (1984)**
by Paulo Freire (Author), Henry A. Giroux (Intro)

Contributes to a radical formulation of pedagogy through its revitalization of language, utopianism, and revolutionary message. . . . The book enlarges our vision with each reading, until the meanings become our own. Harvard Educational Review|||Constitutes the voice of a great teacher who has managed to replace the melancholic and despairing discourse of the post-modern Left with possibility and human compassion. Educational Theory

**Critical Pedagogy Primer, Second Edition (2008)** by Joe L. Kincheloe

The second edition of the Critical Pedagogy Primer not only introduces the topic but also provides a vision for the future of the critical pedagogy. Kincheloe's notion of an evolving criticality makes sure that critical pedagogy will continue to be a vibrant and creative force that makes a powerful difference in education and in the world in general. As it prepares readers for the challenges of the future, it focuses on the traditions and individuals who have helped construct the discipline. This attention to the past and the future provides readers with an introduction unlike most initiations into academic disciplines. In a richly textured but direct manner, Kincheloe captures the spirit of critical pedagogy in a language accessible to diverse audiences. Both the uninitiated and those with experience in critical pedagogy can learn from this unique and compelling perspective on the field.

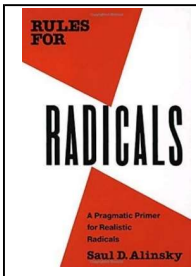

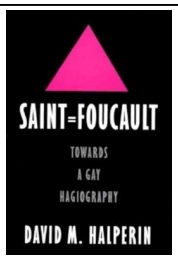

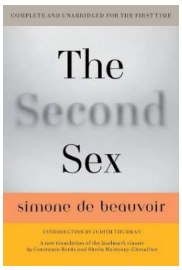

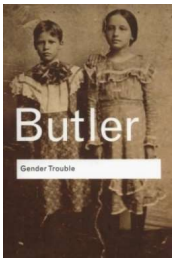

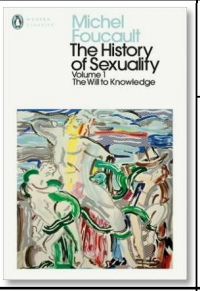

**Critical Constructivism Primer (2005)**
by Joe L. Kincheloe (Author, Contributor), Shirley R. Steinberg (Contributor)

The Critical Constructivism Primer introduces education students to the study of knowledge; how it is inscribed by particular values and produced in problematic ways; whose interests it serves; and how it shapes the identities of those who consume it. Critical constructivism is an epistemological position that examines the process by which knowledge is socially constructed. Joe L. Kincheloe takes readers through the basic concepts and alerts them to the dangers of objectivism, reductionism, and the pathological views of self and world that emerge if students and educators are unaware of the construction of knowledge by dominant power interests. The book is essential reading for individuals who want to become researchers and educators.

**Critical Pedagogy and the Knowledge Wars of the Twenty-First Century (2008)**
by Joe L. Kincheloe (McGill University) **[Free Download]** https://archive.org/details/kincheloe-critical-pedagogy-and-the-knowledge-wars-of-the-twenty-first-century_202104

We live in nasty and perilous times. Those of us in critical pedagogy cannot help but despair as we watch the U.S. and its Western collaborators instigate imperial wars for geopolitical positioning and natural resources, and mega-corporations develop and spend billions of dollars to justify economic strategies that simply take money from the weakest and poorest peoples of the world and transfer them to the richest people in North American and Europe.

| | | |
|---|---|---|
|  | **Rules for Radicals (1989)** by Saul Alinsky **[Free Download]**<br>https://chisineu.wordpress.com/wp-content/uploads/2014/02/saul-alinsky-rules-for-radicals-1989.pdf | |
| | A Pragmatic Primer for Realistic Radicals is a 1971 book by American community activist and writer Saul D. Alinsky about how to successfully run a movement for change. It was the last book written by Alinsky, and it was published shortly before his death in 1972. | |
|  | **Saint Foucault Towards a Gay Hagiography: Towards a Gay Hagiography (1997)**<br>by David M. Halperin | |
| | Offering a no-holds barred rebuke to recent criticism of Foucault by Camille Paglia, Richard Mohr, biographer James Miller, and others, Saint Foucault is an uncompromising and impassioned defence of the late French philosopher and historian. A sometimes scathing, sometimes moving exploration of truth and sexual politics, it shows Foucault as a galvanizing thinker who will continue to serve as a model for gay intellectuals and activists. This book is a definitive Queer text that includes one of the earliest definitions of the modern day concept of a Queer identity. | |
|  | **The Second Sex** by Somone De Beauvoir<br>**[Free Download]** https://newuniversityinexileconsortium.org/wp-content/uploads/2021/07/Simone-de-Beauvoir-The-Second-Sex-Jonathan-Cape-1956.pdf | |
| | Everyone who cares about freedom and justice for women should read The Second Sex' Guardian. Simone de Beauvoir famously wrote, 'One is not born, but rather becomes, woman'. In this groundbreaking work of feminism she examines the limits of female freedom and explodes our deeply ingrained beliefs about femininity. Liberation, she argues, entails challenging traditional perceptions of the social relationship between the sexes and, crucially, in achieving economic independence. Drawing on sociology, anthropology and biology, The Second Sex is as important and relevant today as when it was first published in 1949. Seen as the original text that questioned the nature of womanhood and a key contributing text to modern day Queer Theory. | |
|  | **Gender Trouble: Feminism and the Subversion of Identity (2006)** by Judith Butler<br>**[Free Download]** https://archive.org/details/butler-gender-trouble | |
| | One of the most talked-about scholarly works of the past fifty years, Judith Butler's Gender Trouble is as celebrated as it is controversial. Arguing that traditional feminism is wrong to look to a natural, 'essential' notion of the female, or indeed of sex or gender, Butler starts by questioning the category 'woman' and continues in this vein with examinations of 'the masculine' and 'the feminine'. Best known however, but also most often misinterpreted, is Butler's concept of gender as a reiterated social performance rather than the expression of a prior reality.<br>Would be considered as one of the founding documents of Queer Theory. | |
|  | **The History of Sexuality. Volume 1: An Introduction** by Michel Foucault<br>**[Free Download]** https://archive.org/details/foucault-the-history-of-sexuality-volume-1 | |
| | We talk about sex more and more, but are we more liberated? The first part of Michel Foucault's landmark account of our evolving attitudes in the west shows how the nineteenth century, far from suppressing sexuality, led to an explosion of discussion about sex as a separate sphere of life for study and examination. As a result, he argues, we are making a science of sex which is devoted to the analysis of desire rather than the increase of pleasure.<br>Would be considered as one of the founding documents of Queer Theory. | |
|  | **Thinking Sex: Notes for a Radical Theory of the Politics of Sexuality** by Gayle S. Rubin<br>**[Free Download]** https://bpb-us-e2.wpmucdn.com/sites.middlebury.edu/dist/2/3378/files/2015/01/Rubin-Thinking-Sex.pdf | |
| | Gayle S. Rubin (born 1949) is a cultural anthropologist best known as an activist and influential theorist of sex and gender politics. She has written on a range of subjects including feminism, sadomasochism, prostitution, pedophilia, pornography and lesbian literature, as well as anthropological studies and histories of sexual subcultures, especially focused in urban contexts.<br>Would be considered as one of the founding documents of Queer Theory. | |
