	<p>Awake Not Woke: A Christian Response to the Cult of Progressive Ideology - Noelle Mering</p>	<p>https://www.amazon.co.uk/Awake-Not-Woke-Christian-Progressive/dp/B0BWPZCDX1</p>
<p>The long-simmering crisis that grips our culture has exploded in recent years, leaving us divided and intransigent. Discourse seems futile when we are no longer a people with shared principles or even a shared understanding of reality. What seems obvious to one person is patently absurd to the next. This collapse of meaning is not accidental. It has been plotted and documented for decades, and now presents in its current form as Woke ideology. Awake, Not Woke unmasks this ideology by examining its history, major players, premises, and tactics, showing us that "Wokeness" at its core is an ideology of rupture. Indeed, it is an ideology with fundamentalist and even cult-like characteristics that is on a collision course with Christianity.</p>		
	<p>The Queering of the American Child: How a New School Religious Cult Poisons the Minds and Bodies of Normal Kids - Logan Lancing, James Lindsay</p>	<p>https://www.amazon.co.uk/Queering-American-Child-Religious-Poisons/dp/B0CSP4L1T9</p>
<p>American children are learning a lot about sex, "gender," and sexuality in their schools. District administrators, teachers, and even librarians are obsessed with pushing inappropriate topics onto kids, all in the name of fostering "inclusion." Children today learn that they were "assigned a sex at birth" and can change their sex or "gender" at will. Kids are no longer learning to read, write, or do math, but they are learning how to be "radical gender" activists. Meanwhile, school districts keep parents in the dark, hiding critical information about the health and well-being of their children from them. Inspired by the religious teachings of Michel Foucault, Judith Butler, and Eve Kosofsky Sedgwick, Queer Activists "queered" American education. Schools are no longer teaching children how to flourish in society—they are initiating children into the cult of Queer Theory. Once initiated, children "experience the queer" as they adopt a new cult identity and embark on the destructive path of social and medical "transition." In this book, the authors explain what Queer Theory is, where it comes from, how it got into schools, and what it's doing to children nationwide. The cult of Queer Theory preys on children, and it must be understood if we are ever to stop the madness.</p>		
	<p>You're Teaching My Child What?: A Physician Exposes the Lies of Sex Ed and How They Harm Your Child - Miriam Grossman</p>	<p>https://www.amazon.co.uk/Youre-Teaching-Child-What-Physician/dp/B00OHVJO0U</p>
<p>If you think sex education is still about the birds and the bees, think again. And it's not about science either. In her shocking exposé, 'You're Teaching My Child What?', Dr. Miriam Grossman rips back the curtain on sex education today, exposing a sordid truth. Today's sex ed programs aren't based on science; they're based on liberal lies and politically correct propaganda that promote the illusion that children (yes, children) can be sexually free without risk. As a psychiatrist and expert on sexual education, Dr. Grossman cites example after example of schools and organizations whitewashing - or omitting altogether - crucial information that doesn't fit in with their woke agenda.</p>		
	<p>The Marxification of Education: Paulo Freire's Critical Marxism and the Theft of Education (2022) by James Lindsay</p>	<p>https://www.amazon.co.uk/Marxification-Education-Freires-Critical-Marxism/dp/B0BP89FPY9</p>
<p>Education is in bad shape in America and beyond today. It's obvious. Everyone perceives it. Something is going badly wrong in our schools. Our children aren't learning as they should be. Their mastery of core academic curriculum like reading, writing, history, mathematics, science, and civics has declined to crisis levels and shows no signs of improvement. Meanwhile, they're all learning to be activists, turning their backs on their nations, societies, and even their parents and religions. Instead of correcting course, school curricula keep veering into "social and emotional learning (SEL)," Critical Race Theory, cultural competence, culturally relevant education, Queer Theory, Radical Gender Theory, Comprehensive Sexuality Education, decolonizing the curriculum, and even drag queens. What's going on? The answer is simple. Their education has been stolen from them. Activists have spent the last forty to fifty years taking over education and transforming it into something different: not mere indoctrination but brainwashing. The transformation of education from education to neo-Marxist thought reform follows significantly from the work of a Brazilian Marxist by the name of Paulo Freire, who is little-known outside of South America and colleges of education. In this book, James Lindsay, breaks down the contents and impact of Freire's disastrous work so that you can understand it and, hopefully, put a stop to it.</p>		
	<p>Cynical Theories: How Activist Scholarship Made Everything About Race, Gender, and Identity - and Why This Harms Everybody – Helen Pluckrose & James Lindsay</p>	<p>https://www.amazon.co.uk/Cynical-Theories-Scholarship-Everything-Everybody/dp/B08LDTJDM</p>
<p>Have you heard that language is violence and that science is sexist? Have you read that certain people shouldn't practice yoga or cook Chinese food? Or been told that being obese is healthy, that there is no such thing as biological sex, or that only White people can be racist? Are you confused by these ideas, and do you wonder how they have managed so quickly to challenge the very logic of Western society? More focused on the political side of what's happening in the culture and insightful in that context. Effectively a debunking of radical activist scholarship.</p>		
	<p>The Long March - How the left won the culture war and what to do about it – Marc Sidwell [Free Download]</p>	<p>https://www.newcultureforum.org.uk/files/ugd/e42793_a246d5d7f7d94e569add03c4cb6de684.pdf</p>
<p>This book uncovers the truth: a tangled history in which active subversion runs alongside unintended consequences and missed opportunities. Armed with a clearer understanding of the left's long march, it also reveals new possibilities for fighting back.</p>

We are in the middle of the largest cultural revolution ever to wash over America. At breakneck speed, radical activists redefine our language, weaponize our desires and fears, and coerce all of us to hammer incessantly at the pillars of Western civilization. Armed with conspiratorial claims, these foot soldiers practice a radical politics of race, gender, and identity. They morally abuse reality in pursuit of their ultimate goal—the dismantling of America. The Woke Warpath: How Marxists Use Race and Gender to Break America argues that these activists have spent more than a century planting their Marxian and postmodern philosophical traditions into bedrock American institutions, cultivating a pernicious form of social justice that seeks to break the liberal order. These Critical Marxists have captured our laws, schools, and workplaces. They have created a new, perverted moral orthodoxy that is changing how we police our streets, educate our children, and perceive reality. The consequences of such targeted destruction are widespread and real. We must stop the Woke Warpath.

The Tavistock's Gender Identity Development Service (GIDS) was set up initially to provide talking therapies to young people who were questioning their gender identity. But in the last decade GIDS referred around two thousand children, some as young as nine years old, for medication to block their puberty. In the same period, the number of referrals exploded and the profile of the patients changed: from largely pre-pubescent boys to mostly adolescent girls, who were often contending with other difficulties. Was there enough clinical evidence to justify such profound medical interventions? This urgent, scrupulous and dramatic book explains how GIDS has been the site of a serious medical scandal, in which ideological concerns took priority over clinical practice. It is a disturbing and gripping parable for our times.

America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined humanistic values, fueled intolerance, and widened divisions in our larger culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling, or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges these campus orthodoxies is silenced with brute force.

What doesn't kill you makes you weaker. Always trust your feelings. Life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being, as well as ancient wisdom from many cultures. And yet they have become increasingly woven into education, culminating in a stifling culture of "safetyism" that began on American college campuses and is spreading throughout academic institutions in the English-speaking world.

An urgent and insightful investigation into the collapse in youth mental health, from the influential social psychologist and international bestselling author. After more than a decade of stability or improvement, the mental health of adolescents in many countries around the world deteriorated suddenly in the early 2010s. Why have rates of depression, anxiety, self-harm and suicide risen so sharply, more than doubling in many cases?

	<p>Hidden Agender: Transgenderism's Struggle Against Reality by Gerard Casey</p>	<p>https://www.amazon.co.uk/Hidden-Agender-Transgenderisms-Struggle-Societas/dp/1788360583</p>
	<p>WHEN HARRY BECAME SALLY - Ryan T. Anderson</p>	<p>https://www.easons.com/when-harry-became-sally-ryan-t-anderson-9781641770484</p>

In Hidden Agender, Gerard Casey develops a timely and provocative defence of free speech and toleration against the transgenderist ideology that has infiltrated so much of the media, the political establishment and the law. Opposing ideas, not individuals, Hidden Agender provides a compelling critique of the transgender ideologists and trans activists, and the new reactionary form of legal intolerance of our right to free thought and free speech. As a libertarian, Casey believes that we should be free to say and do whatever we wish provided that, in so doing, we do not perpetrate violence, or threaten to perpetrate violence, against the person or property of another. The fundamental objection is rather to individuals being forced, on pain of legal or social sanctions, to believe (or to pretend to believe) what to them is patently false, namely, that a man can become a woman or a woman a man, and to be legally obliged to treat those who claim to have transitioned from one sex to another as if they really had managed to do so. Drawing on extensive research, both scientific and anecdotal, Hidden Agender is a robust defence of free speech and tolerance against the combined forces of prejudice, wokeness and legal intimidation.

Drawing on the best insights from biology, psychology, and philosophy, Ryan offers a nuanced view of human embodiment, a balanced approach on gender, and a sober view of the costs of getting human nature wrong.
