	**United Nations Agenda 2030 Part One with Sandi Adams - Origins - Where Has This Come From?**	https://youtu.be/TnOAlMHbNPk
	Once treated as a "Far Right Conspiracy Theory", Agenda 2030 and the Sustainable Development Goals are being implemented at all levels of government and society and now pervade our children's text books. In this video we will take a look at where Agenda 2030 came from and some it's broader implications for our future. In Part Two, we will get into the 17 sustainable Development Goals that form Agenda 2030.

	**United Nations Adopts Ground-Breaking Pact for the Future to Transform Global Governance**	https://youtu.be/mbsO4lOs00w
	Many may not be aware that on the 22nd Sept 2024, the United Nations Pact for the Future was adopted. Despite it's significance, coverage in the main stream media was very limited. One of the primary objectives of this pact is to push forward with achieving the Agenda 2030 Sustainable Development Goals. There is a lot for Ireland to consider in this pact, and one of these areas we will be spending more time on is the areas of education. For now, this is an introduction to what happened on the 22nd Sept and it's potential consequences through the eyes of the Argentine President, Javier Milei, who expresses concerns many would share. If you've never heard for the Pact for the Future then it's probably a good time to start getting familiar with it. We have included the main official UN links below.	
	**Replacing Education with Indoctrination - United Nations Agenda 2030**	https://youtu.be/cPpkrDGshzc
	We show how the United Nations have transformed education at all levels into indoctrination on their technocratic dogmas and ideologies, replacing learning with UN propaganda and woke activism. This segment is taken from a larger documentary from Oracle Films on the whole area of Agenda 2030. A link to the full documentary is below. While this is a UK based video, the content is applicable to any Western Nation who is adopting Agenda 2030 which includes Ireland. Specific notes with respect to Irish education have been overlaid to provide specific examples of what is happening here.

The potential for social control of our lives and minds is alarmingly real. The plan has been decades in the making and has seen infiltration of Governments, local councils, big business, civil society, the media	
	**Why Are the European Elites Destroying the West?**	https://youtu.be/5oQhFgH0TfY
	Why are European elites dismantling the Christian foundations of the West, and what does this mean for America? In this Prophecy Update, Pastor Brandon Holthaus draws on his recent visit to England and conversations with European believers to examine secularization, globalism, immigration policies, Islamist political influence, and the erosion of national sovereignty. He explores how fear, moral relativism, and contempt for Western heritage contribute to the pursuit of a post-Christian Europe.	
	**How the Specter of Communism Is Ruling Our World | Eps.1 Introduction | The Epoch Times**	https://youtu.be/5167DtFdYYU?list=PLFZ9Q6hV6p6E6nP1ylAr6gK_HRITedbKc
	The specter of communism did not disappear with the disintegration of the Communist Party in Eastern Europe. Many were thus optimistic, holding the belief that communism had become a relic of the past. A stealthily transformed communist ideology has instead taken hold and entrenched itself around the world. There are the outright communist regimes like China, North Korea, Cuba, and Vietnam; there are the former Soviet Union and Eastern European countries, where communist ideology and customs still exert a significant influence; there are the African and South American countries, which attempt socialism under the banner of democracy and republicanism—and then there are the nations of Europe and North America, whose body politics have become host to communist influences, without people even realizing it.

	In 2020, G20 governments, in collusion with the World Economic Forum's Stakeholders, discretely and undemocratically enacted a global ten-year transition to an authoritarian political system, called Stakeholder Capitalism. After propagating a Marxist idea that black and trans people are oppressed and indoctrinating us to fear climate change, the Stakeholders are mandating their pre-planned political system, which its criminal mastermind, Klaus Schwab, alleges is better for 'people and planet'. Will we push back before A.I. takes our jobs, our wealth shifts to the Stakeholders and we become vulnerable to tyranny? Join tech entrepreneur, Richard Jeffs, as he investigates The Great Reset transition to Stakeholder Capitalism.

	**Why the ESG Revolution Was Never About Saving the Planet | Desiree Fixler**	https://youtu.be/OMEQ_95JYYc
	Former BlackRock ESG executive and whistleblower Desiree Fixler joins The Winston Marshall Show to explain how stakeholder capitalism and ESG became a multi-trillion-dollar system that enriches elites while raising costs for ordinary people. Drawing on her experience inside BlackRock, the World Economic Forum, and regulatory advisory boards, she describes the scale of greenwashing and the incentives driving it. The conversation covers ESG underperformance, net zero policy failures, and how these agendas blur the lines between capitalism, politics, and state control. Join him to see for yourself.	

	**A whistleblower's greenwashing allegations, and the impact they've had | FT Moral Money**	https://youtu.be/d8TzL5-pSYo
	A whistleblower's greenwashing allegations, and the impact they've had. Last year Desiree Fixler was fired from her position as head of sustainability at German asset manager DWS. She says her dismissal came after she warned the company it was overstating its sustainable investment credentials. DWS has always denied Fixler's allegations, but what impact have her claims had?	
	**The Corruption of Stakeholder Capitalism**	https://www.youtube.com/watch?v=u3_XGFuWkj4
	Stakeholder Capitalism is a scam. Though not particularly well-known outside of certain business circles, it is the model associated with Klaus Schwab and the World Economic Forum. Its basic form is this: the purpose of the company itself has to change, not to serve customers and generate profit for shareholders but instead to "serve all stakeholders." Its mechanism is also unsurprising: ESG, Environmental, Social, and Governance scoring metrics for corporations. Unsurprisingly, its implementation is shockingly corrupt and filled with Marxist distortions. James Lindsay goes through a short September 2020 Harvard Law School Forum on Corporate Governance document about corporate incentives packages for ESG and the stakeholder model together with and a crucial portion of Klaus Schwab's 2022 book, The Great Narrative for a Better Future, to make clear just how corrupt and dangerous the ESG agenda and stakeholder capitalism truly are.	
	**Totalitarianism, War, and Resistance in the Post-Covid Era**	https://davidahughes.net/totalitarianism-war-and-resistance-in-the-post-covid-era/
	David Hughes presentation at the Mise Eire Festival, September 19, 2026. Since 2020, it has become undeniable that an attempt is underway to manufacture a novel, biodigital form of totalitarianism on a global scale, the operating system for which is technocracy. The implications of this are historic, namely, the end of the nation-state and the rights of citizenship as we have known them since the French and American Revolutions, and their replacement with a global system of total control facilitated by digital technologies and AI.	
	**Narrative warfare: David Hughes on how propaganda shapes reality**	https://youtu.be/PZeaQc-4Xqg
	Zahra Sethna speaks with Professor David A. Hughes about the psychological dimensions of modern conflict and why understanding propaganda has become essential for anyone trying to make sense of the world. Hughes gives a clear taxonomy of his "three camps of awareness" framework — a model that divides the information landscape into three groups: Camp One: the people who accept official narratives; Camp Two: the people who reject those narratives but become trapped in alternative echo chambers, replacing one set of authoritative voices for the same, only more 'alt'; and Camp Three: the smaller group attempting to navigate evidence carefully without adhering to any particular ideology or seeking any heroes, gurus, or leaders.	
	**Review of "The Indoctrinated Brain" by Dr.Michael Nehls - Fend off the Attack on Your Mental Freedom**	https://youtu.be/OeCp1g2ZRqM
	This video reviews the book "The Indoctrinated Brain" by Dr. Michael Nehls. This book covers the mechanisms of how our thinking brain operates, and how these mechanisms can be interfered with as part of the indoctrination process or as part of dumbing down and achieving unquestioning conformity in the population. It also covers the mechanisms behind dementia and Alzheimers and the steps that can be taken to improve brain health and help us maintain our ability to think critically even in the face of aggressive propaganda and indoctrination.	
	**The Corruption of Wikipedia - Subverting Truth in Favour of Narrative**	https://youtu.be/lazFlwERZ-w

	**Project Syndicate - Setting the Mainstream Media Narrative at a Global Level**	https://youtu.be/Rhu5M1Uyc-w
	Funded by the likes of the Open Societies and Gates Foundations, Project Syndicate provides media input to over 540 outlets in over 150 countries. The narrative they provide is heavily biased towards the globalist technocratic mainstream narrative we are all too familiar which includes a heavy anti-Trump and anti-nationalism bias.

	We consider the 2025 Programme for Government, with an emphasis on issues of particular interest to parents, highlighting the fact that much of the policy would appear to be very much in line with Green Party policy, even though the Green Party are not in government. How can this be?
