	English Class or Ideology Class? - Whole School Indoctrination in Irish Schools	https://youtu.be/FT-pPIVo1bc
	This video shows how the Junior Cycle English class can be captured by woke indoctrination, delivered via the English textbook "Louder than Words". Pushed by UNESCO and DCU, and sanctioned by the NCCA and Dept. of Education, the so-called "whole school approach" is a way of embedding woke propaganda in every class and every subject without the knowledge of parents. This is a gross subversion of parental rights. Delivered using social emotional learning techniques (via Critical Pedagogy), in order to bypass a child's critical thinking function, this is blatant indoctrination, replacing scholarship and learning with activism and woke brainwashing, stealing a child's proper education from them in the process.

It concerns the corruption of the minds of our youngest, most innocent, and most vulnerable to manipulation. The literature review provides the academic argument for teaching our youngest children about critical race theory, critical social justice, and sustainable development (De-growth Marxism).

Despite it's significance, coverage in the main stream media was very limited. One of the primary objectives of this pact is to push forward with achieving the 2030 Sustainable Development Goals. There is a lot for Ireland to consider in this pact, and one of these areas we will be spending more time on is the areas of education. For now, this is an introduction to what happened on the 22nd Sept and it's potential consequences through the eyes of the Argentine President, Javier Milei, who expresses concerns many would share. If you've never heard for the Pact for the Future then it's probably a good time to start getting familiar with it. In this hard-hitting interview, Xi Van Fleet – a US citizen who grew up during The Cultural Revolution – eloquently explains the Woke ideology and its resemblance to Mao's China. Xi's interview by investigative filmmaker, Richard Jeffs, exposes how the Chinese Communist Party are expanding throughout the West by partnering with the World Economic Forum. Blending Neo Marxism with Climate Alarmism, this interview reveals how we are being transitioned to a global totalitarian system – shaped by public/private partnerships through an economic system called Stakeholder Capitalism.

The World's Major Problems Due to 'Stakeholder Communism': Richard Jeffs

<https://www.youtube.com/watch?v=0AJdKtPOWyc>

In 2020, G20 governments, in collusion with the World Economic Forum's Stakeholders, discretely and undemocratically enacted a global ten-year transition to an authoritarian political system, called Stakeholder Capitalism. After propagating a Marxist idea that black and trans people are oppressed and indoctrinating us to fear climate change, the Stakeholders are mandating their pre-planned political system, which its criminal mastermind, Klaus Schwab, alleges is better for 'people and planet'. Will we push back before A.I. takes our jobs, our wealth shifts to the Stakeholders and we become vulnerable to tyranny? Join tech entrepreneur, Richard Jeffs, as he investigates The Great Reset transition to Stakeholder Capitalism.

The Corruption of Stakeholder Capitalism

https://www.youtube.com/watch?v=u3_XGFuWk4j

Stakeholder Capitalism is a scam. Though not particularly well-known outside of certain business circles, it is the model associated with Klaus Schwab and the World Economic Forum. Its basic form is this: the purpose of the company itself has to change, not to serve customers and generate profit for shareholders but instead to "serve all stakeholders." Its mechanism is also unsurprising: ESG, Environmental, Social, and Governance scoring metrics for corporations. Unsurprisingly, its implementation is shockingly corrupt and filled with Marxist distortions. In this episode of the New Discourses Podcast, host James Lindsay goes through a short September 2020 Harvard Law School Forum on Corporate Governance document (<https://corpgov.law.harvard.edu/2020/>...) about corporate incentives packages for ESG and the stakeholder model together with and a crucial portion of Klaus Schwab's 2022 book, The Great Narrative for a Better Future (<https://amzn.to/3UyCmgX>), to make clear just how corrupt and dangerous the ESG agenda and stakeholder capitalism truly are. 	Sexualising Children? The rise of Comprehensive Sexuality Education Deep Dives	https://www.youtube.com/watch?v=cCEq2xCb274
	In this special episode - live from MCC Feszt in Esztergom, Hungary - we talk to Joanna Williams about her new report 'Sexualising Children? The rise of Comprehensive Sexuality Education'. Joanna explains how a new paradigm has taken hold in schools - a radical new idea of how to teach sex education. This approach (Comprehensive Sexuality Education, CSE) obsesses with promoting the idea that children are sexual beings and that their sexual pleasure is paramount. As we learn, CSE is designed to be an intrusive moral crusade that invades children's lives. The lessons are designed to manipulate children's attitudes and values in their most private matters. We discuss how elites bypass parents to force social change down everyone's throats.

"Crisis," Kumashiro says, "should be expected in the process of learning, by both the student and the teacher. Like queer activism, queer teaching always works through crisis...the goal is to continue teaching and learning through crisis—to continue experiencing the queer." Curriculum to Classroom- How does woke activism slip in? - Chanel Pfahl 2/8 - 2nd PRCOC Summit (Canada)	Chanel Pfahl is a former high school teacher. After voicing her opposition to critical race theory indoctrination in a Facebook group back in 2021, she was promptly suspended by her school board and later investigated by the Ontario College of Teachers. She has since dedicated herself to exposing and ringing the alarm about the brainwashing happening in schools across Canada. In her pre-recorded presentation, Chanel dives deeply into DEI (Diversity, Equity and Inclusion) and "2SLGBTQI" materials, assignments and presentations in Canadian K-12 schools. His unprecedented research looks at Critical Theory and Pedagogy, and its rapidly growing influence in Ontario educational policy as well as its conflict with Cognitive Science-based Pedagogy. Stephen is particularly interested in the astronomical growth of the concept of "identity" in education, and how it has displaced traditional subject matter study. Stephen discusses the overt engineering of equal outcomes through DEI in public education in Canada and how this creates a "breach of the social contract between public education and the public". He also gives listeners a look into his ongoing research into 40 years of the inner workings of Canadian Boards of Education.	https://www.youtube.com/watch?v=zBEUjglbwKg

Critical Race Theory, Queer Theory, & Maoist Education	At present, schools throughout North America are reproducing the youth radicalization program utilized by Communist dictator Mao Zedong. They're doing this by combining Critical Race Theory, Gender Theory (gender ideology), Queer Theory, and the other Critical Theories of Identity (Identity Marxism) to funnel kids into politically active, radical and revolutionary personal identities. They're doing it because it works: Marxism is the what, and Maoism is the how. In this episode of New Discourses Bullets, James Lindsay condenses the argument in his popular Groomer Schools 3 podcast: The Creation of an American Red Guard (https://newdiscourses.com/2021/12/gro...) to explain Mao's strategy to radicalize and mobilize the youth against their existing culture. He then explains how the terms of Critical Race Theory, Queer Theory, etc., are used to reproduce this in the intersectional (Identity Marxist) context here in the West for the same purposes.	https://www.youtube.com/watch?v=EHWDmg4rfhM

Helen Pluckrose on confronting Critical Theory Solutions With David Ansara Podcast #32	I speak with British writer Helen Pluckrose about the pernicious influence of Critical Theory, and how to push back against these dangerous ideas. Helen and I discuss the postmodern origins of Critical Theory, and how it escaped academia to become mainstream. This has dramatically altered the way we talk about race, gender and sexuality, she says. Helen argues that what passes for 'Social Justice' is in fact a fundamentally illiberal and intolerant ideology. Its adherents suppress free speech, foster a culture of victimhood and essentialise people's experience based on their identity and 'positionality'. We explore alternative (liberal) approaches to social justice, and also discuss the practical steps that ordinary people can take to counteract 'wokeness' in the workplace or other institutions.	https://www.youtube.com/watch?v=xCMUAz7pMA8

Diversity and Inclusion are tools used to install political officers and to censor and remove dissidents, respectively. In other words, the Woke Marxist DEI industry is a racket designed to install commissars for its ideology. In this episode of New Discourses Bullets, James Lindsay breaks this vital concept down in quick, digestible terms.	https://www.youtube.com/watch?v=IKLuhY2Q7Rw
